

**Number:** PL-334  
**Date:** December 12, 2003  
**Subject:** 909 NPA; 2-way Split, Creating 951 NPA – California  
**Related Previous Planning Letters:** 189, 206 and 215

---

**General Description**

On November 13, 2003, the California Public Utility Commission (CPUC) in Decision D03-11-022 approved a 2-way geographic split as the relief method for the 909 NPA, which serves the south-western portion of San Bernardino County, the western portion of Riverside County and a small portion of Los Angeles County in southern California. A copy of the CPUC order and other related Commission information can be obtained at: <http://www.cpuc.ca.gov/>. This PL supercedes PL's # 189, 206 and 215.

As ordered by the Commission, the northern region of the existing 909 NPA will retain the 909 designation after the split. Some of the areas that will continue to be served by the NPA 909 include such communities as Arrowhead, Big Bear City, Big Bear Lake, Calimesa, Chino, Claremont, Colton, Crestline, Diamond Bar, Fontana, Ontario, Pomona, Redlands, Rialto, Running Springs, San Bernardino and Upland. These communities will retain the 909 NPA.

The new 951 NPA will serve the southern portion of the existing 909 NPA. Some of the areas to be served by the new 951 NPA will consist of such communities as Anza, Arlington, Banning, Corona, Elsinore, Hemet, Idyllwild, Mira Loma, Moreno Valley, Murrieta, Perris, Riverside, San Jacinto, Sun City, and Temecula. These communities will change to the 951 NPA.

**Implementation of Relief Plan**

Implementation of the split of the 909 NPA is as follows:

	<b>Time</b>	<b>Date</b>
Start of permissive dialing and latest date for all carriers to activate new NPA code	12:01 AM Pacific	July 17, 2004
End of permissive dialing and start of mandatory dialing of the new NPAs	12:01 AM Pacific	October 30, 2004
Earliest date for the end of recorded announcement	-	February 27, 2005
Earliest code activation date	-	February 27, 2005
First date codes may be ordered through NANPA	-	August 27, 2004

During the permissive dialing period, either the 909 or the new 951 NPA code will be acceptable in a dialed number terminating in the new 951 NPA. After the permissive period ends, all calls dialed with the incorrect NPA code will be routed to intercept recording through February 25, 2005. The CPUC directs carriers, to the extent possible, to continue playing the special recorded announcement instructing the caller to dial the new 951 area code for one year following the end of the mandatory dialing period, or until such time as the prefix is assigned in the 951 area code.

**Central Office Code Listings and NPA Map**

Attached is a listing of the central office codes, rate centers, and Common Language Location Identifiers (CLLI) that will remain in the 909 NPA and those that will move to the new 951 NPA. The CPUC order states they will not require paging type NXX codes to change to the new NPA. Additionally, the special use 853 NXX code (time service) and the 431<sup>1</sup> NXX code (High Volume Call In) will be duplicated in the new 951 NPA. This information is current as of December 10, 2003. Since NXX information may change over time, please consult the Local Exchange Routing Guide (LERG) or the NXX Activity Guide (NNAG) for updated information. Information in the LERG and NNAG is available by license contract from Telcordia Routing Administration (TRA), at 732-699-6700. The attached map identifies the NPA boundaries after the 2-way split.

**Dialing Plan**

At the beginning of mandatory dialing on October 30, 2004, the dialing plan for the 909 and 951 NPAs will be as follows:

Type of call	Call terminating to	Dialing plan
Local or Toll call	Home NPA (HNPA)	7-digits (NXX-XXXX) or 1 + 10-digits (1 + NPA-NXX-XXXX)*
	Foreign NPA (FNPA)	1 + 10-digits (1 + NPA-NXX-XXXX)
Operator Services Credit card, collect, third party	HNPA or FNPA	0 + 10-digits (0 + NPA-NXX-XXXX)

\*1+10-D HNPA Dialing is Optional

**Network Testing**

All international and domestic carriers should ensure that the new 951 NPA has been activated throughout their networks prior to July 17, 2004. The test number to verify the routing to the new NPA will be in service beginning May 17, 2004, through November 30, 2004. The test number to verify the routing to the 951 NPA is (951) 951-0951. A recorded announcement will indicate that the test call has been successfully completed.

<sup>1</sup> Subsequent to the Order the CPUC clarified the 431 NXX as the correct code for duplication.

## General Information

The information in this planning letter reflects detailed information about NPA relief activities. The information has been derived from commission orders and from industry implementation decisions. The implementation of the plan described in this letter is the responsibility of individual service providers, and NANPA does not guarantee that the activities and plans will occur exactly as described herein.

## Contact Information

General questions regarding the relief of the NPA 909 should be directed to Joe Cocke, Senior NPA Relief Planner - NANPA, on 805-520-1945. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.

Attached is a list of company and contact information that is provided to assist in the implementation of the relief plan described herein. Because this information is subject to change, NANPA cannot guarantee the completeness or the accuracy of the attached list.
