

Number: PL-364
Date: July 27, 2007
From: Canadian Numbering Administrator (CNA)
Subject: NPA 587 to Overlay NPAs 403 and 780 (Alberta, Canada)
Related Previous Planning Letters: None

In Telecom Decision CRTC 2007-42, *Code relief for area codes 403 and 780 – Alberta*, dated 14 June 2007, the Canadian Radio-television and Telecommunications Commission (CRTC) approved the introduction of a new area code for Alberta, Canada to the regions currently served by area codes 403 and 780. The new area code 587 assigned by the North American Numbering Plan Administration (NANPA) will be implemented in a "distributed overlay" over the entire province of Alberta covering both area codes 403 and 780 on the relief date of 19 September 2008.

Maps showing the area served by NPAs 403, 780 and the new overlay NPA 587 as well as lists of exchange areas in each area code in Alberta are attached to this letter.

Prior to mandatory 10-digit local dialling, callers dialling local calls with 7 digits will hear a network announcement notifying them to dial local calls with 10-digits in the future, after which their calls will be completed. Canadian carriers operating in NPAs 403 and 780 in Alberta will start providing this network announcement no earlier than 23 June 2008 and no later than 27 June 2008, and maintain it until mandatory 10-digit local dialling is introduced no earlier than 8 September 2008 and no later than 12 September 2008.

When mandatory 10-digit local dialling is introduced, a caller dialling a local call with 7 digits will hear a network announcement informing the caller that local 10-digit dialling is required and directing the caller to hang up and redial using the area code plus the 7-digit number they are calling.

The dialling plan for the NPA 403/780/587 overlay area will be as follows:

- All local calls, including Extended Area Service calls, originating within the NPA 403/780/587 overlay area must be dialled with 10-digits; i.e., NPA-NXX-XXXX.
- Toll and alternately billed service calls within the NPA 403/780/587 overlay area will continue to be dialled with 10-digits after the appropriate prefix digit(s).

Any 7-digit local dialling that currently exists from Lloydminster and Marshall in area code 306 (Saskatchewan) into area code 780 (Alberta) and from Sweetgrass in area code 406 (Montana) into area code 403 (Alberta) will not be affected by the overlay of a new NPA.

All international and domestic Telecommunications Service Providers (TSPs) should ensure that the new 587 NPA code is activated throughout their networks prior to **22 June 2008**.

The following Test Numbers for the new overlay NPA 587 will be made available for testing purposes effective 22 April 2008. Test calls to verify routing to the new overlay NPA 587 can be made by dialling the TEST numbers. Test calls to verify billing system operations using answer supervision to the new overlay NPA 587 can be made by dialling the BILL numbers.

<u>Carrier</u>	<u>Test Number</u>
TELUS	587-610-8378 (TEST)
TELUS	587-610-2455 (BILL)

Calls successfully completed to the test numbers will receive the following standard recorded announcement:

“You have successfully completed a call to the 587 Area Code Test Number at [CARRIER NAME] in Alberta, Canada”.

The Test Numbers will be disconnected between 19 September 2008 and 13 October 2008.

Central Office (NXX) Codes within the new overlay NPA 587 may be assigned to TSPs after **19 March 2008** (i.e., six months prior to the relief date of **19 September 2008**) however; assigned codes cannot be activated in the PSTN prior to **19 September 2008**.

General questions about this relief activity or Central Office Code Administration may be directed to Glenn Pilley or Suresh Khare, CNA, at 613-563-7242. Technical questions should be directed to the appropriate TSP.
