 Subject: NPA 442 to Overlay NPA 760 (California)
 Related Previous Planning Letters: PL-160, PL-194, PL-238, PL-377

General Description

On October 16, 2008 the California Public Utilities Commission (CPUC) in Order D.08-10-038 vacated the geographic split order and approved an all-services overlay as the relief method for the 760 NPA, which serves the entire southeastern portion of the state. A copy of the CPUC order and other related Commission information can be obtained at: www.cpuc.ca.gov/puc. This planning letter replaces all previous planning letters mentioned above.

The 760 NPA generally covers all of Imperial, Inyo and Mono counties, most of San Bernardino County, the northern portion of San Diego County and the eastern portions of Kern and Riverside counties. Information on counties and cities in the 760 NPA can be seen on the attached rate center, county and city map. The new **442 NPA** will serve the same geographic area currently served by the existing 760 NPA.

Implementation of Relief Plan

Implementation of the overlay of the 442 NPA is as follows:

	Time	Date
Start of permissive 1+10-digit dialing	12:01 AM PT	May 2, 2009
End of permissive dialing and start of mandatory 1+10-digit dialing	12:01 AM PT	October 24, 2009
Earliest new NPA central office code activation date*	-	November 21, 2009
Earliest date central office codes in the new NPA may be ordered through NANPA	-	May 21, 2009

* Effective Date of the New 442 NPA

During the permissive dialing period, subscribers may dial calls within the overlay area on either a 7-digit or 1+10-digit basis, but will be encouraged to dial 1+10-digits. After the permissive period ends, all calls must be dialed using 1+10-digits.

Central Office Code Listings and NPA Map

A rate center map of the 760/442 NPA overlay is attached. An updated list of NXX codes assigned to the affected area may be found on the NANPA website at www.nanpa.com or in the

Local Exchange Routing Guide (LERG) or the NPA NXX Activity Guide (NNAG). Information in the LERG and NNAG can be obtained by contacting Telcordia Routing Administration (TRA), at 732-699-6700.

Dialing Plan

Coincident with the introduction of mandatory 1+10-digit dialing on October 24, 2009, the dialing plan for the 760 and 442 NPAs will be as follows:

Type of call	Call terminating in	Dialing plan
Local call	Home NPA (HNPA) or Foreign NPA (FNPA)	1 + 10-digits (1 + NPA-NXX-XXXX)
Toll call	HNPA or FNPA	1 + 10-digits (1 + NPA-NXX-XXXX)
Operator Services Credit card, collect, third party	HNPA or FNPA	0 + 10-digits (0 + NPA-NXX-XXXX)

Network Testing

All international and domestic carriers should ensure that the new 442 NPA has been activated throughout their networks prior to November 21, 2009. Test numbers to verify the routing to the new NPA will be in service beginning August 21, 2009 through December 21, 2009. The test numbers to verify the routing to the 442 NPA are: (442) 442-1442 in LATA 732, (442) 730-8378 (TEST) in LATA 730, and (442) 973-8378 (TEST) in LATA 973. A recorded announcement will indicate that the test call has been successfully completed.

General Information

The information in this planning letter reflects detailed information about NPA relief activities. The information has been derived from commission orders and from industry implementation decisions.
