

Number: PL- 428  
Date: October 18, 2011  
From: Canadian Numbering Administrator (CNA)  
Subject: NPA 236 to Overlay NPA 250/604/778 (British Columbia, Canada)  
Related Previous Planning Letters: None

---

In Telecom Decision CRTC 2011-451 dated 28 July 2011, the Canadian Radio-television and Telecommunications Commission (CRTC) directed that relief for British Columbia area codes 250/604/778 be provided through a distributed overlay of a new area code 236 starting 1 June 2013.

New area code 236 has been assigned by the North American Numbering Plan Administrator and will be implemented on the Relief Date of 1 June 2013 as a distributed overlay over the province of British Columbia currently served by the 250, 604 and 778 area codes. A map showing the location of the area served by area codes 250, 604 and 778, and a list of the 314 Exchange Areas in the area are attached to this letter.

When the new NPA Code 236 is introduced, no changes will take place in the dialling plans in the area that is served by NPAs 250/604/778 and that will be served by NPA Code 236. The dialling plan in this area will continue to be:

- all local calls including Extended Area Service calls will be dialled with 10 digits
- toll and alternatively billed calls will be dialled with 10 digits after the appropriate prefix digit(s).

All international and domestic Telecommunications Service Providers (TSPs) should activate the new NPA Code 236 throughout their networks by the start date for network testing (3 March 2013).

The following test numbers for the new NPA Code 236 will be made available effective 3 March 2013. Routing of calls to NPA 236 can be verified by dialling the 8378 (TEST) numbers which do not provide answer supervision. Billing of calls to NPA 236 can be verified by dialling the 2455 (BILL) numbers which provide answer supervision.

Test Number	Exchange Area (Rate Centre)	Carrier
236-410-8378 and -2455	Kelowna	TELUS
236-510-8378 and -2455	Vancouver	Rogers Communications
236-610-8378 and -2455	Vancouver	TELUS
236-710-8378 and -2455	Victoria	TELUS
236-810-8378 and -2455	Vancouver	MTS Allstream

Calls successfully completed to test numbers will receive the following announcement:

"You have successfully completed a call to the 236 area code test number at [CARRIER NAME] in British Columbia, Canada."

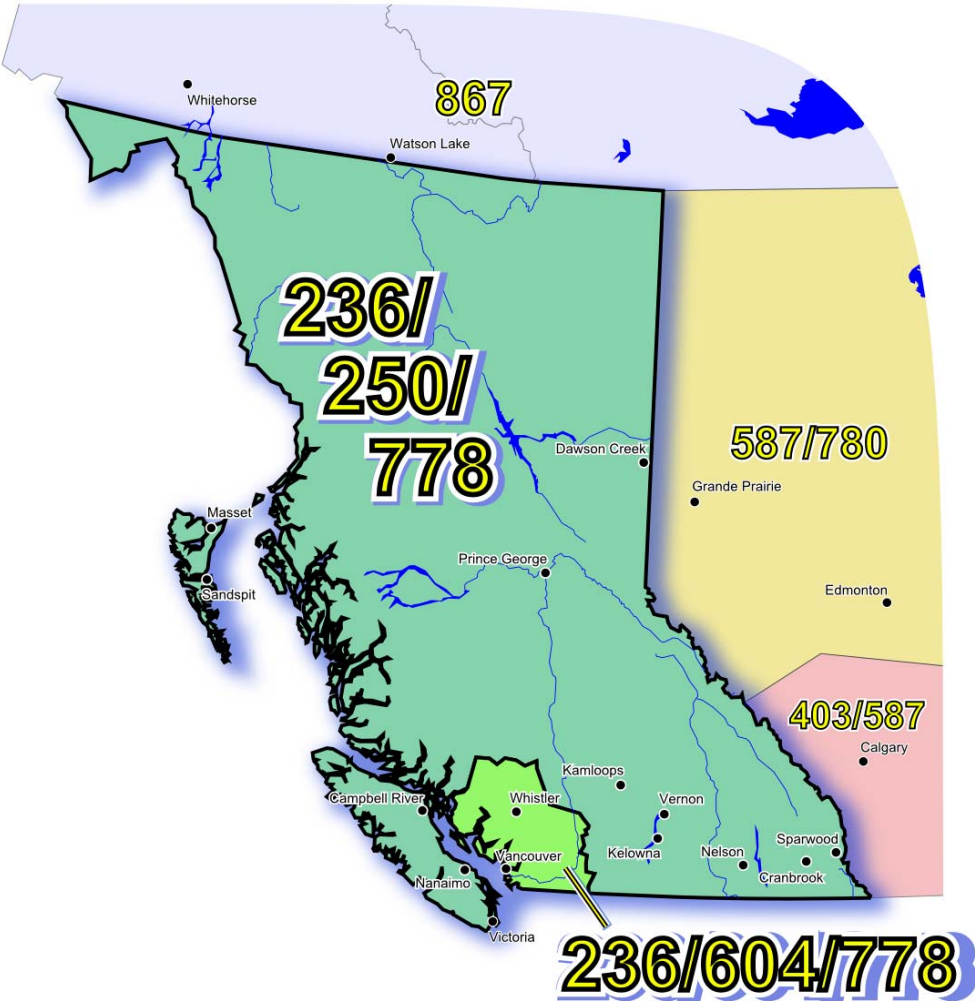

The disconnection dates for the test numbers will be between 1 July 2013 and 1 August 2013.

Central Office (NXX) Codes within NPA 236 may be assigned to TSPs starting from 1 December 2012, but cannot be activated in the PSTN prior to the Relief Date of 1 June 2012.

General questions about this relief activity may be directed to Glenn Pilley or Suresh Khare, of the Canadian Numbering Administrator (CNA), at 613-563-7242. Specific questions related to telecommunications services and network routing should be directed to the appropriate TSP.
