

Number: PL – 500
Date: December 28, 2016
Subject: NPA 223 to Overlay NPA 717 (Pennsylvania)
Related Previous Planning Letters: None

General Description

On October 27, 2016 the Pennsylvania Public Utility Commission in its order in Docket P-2015-2510230, approved an all services overlay as the relief method for the 717 NPA. The 717 NPA generally covers the south-central portion of the state and serves communities such as Gettysburg, Harrisburg, Lancaster, Lebanon, and York. The new 223 NPA will serve the same geographic area currently served by the existing 717 NPA.

Implementation of Relief Plan

The unique implementation interval requirements provided by the Commission require NANPA to provide a monthly report on the projected exhaust date of the 717 NPA based on actual carrier demand. When the PUC determines the 717 NPA is within 3-months of exhaust it will notify the industry to start customer education and permissive dialing. Service providers shall not commence customer education until the Commission informs them that the 717 NPA will exhaust within three months. All network preparation is to be completed no later than March 1, 2017. As the dates for the implementation intervals become known NANPA will publish another planning letter.

Implementation of the New 223 overlay is as follows:

| | Time | Date |
|---|------------------|-------------|
| Completion of Network Preparation | 12:01 AM Eastern | 3/1/2017 |
| Start of permissive 10-digit dialing & customer education – Pending notice from PUC of 3-months to exhaust | 12:01 AM Eastern | TBD |
| End of permissive dialing and start of mandatory 10-digit dialing with first assignment of NXX codes from new NPA | 12:01 AM Eastern | TBD |
| Earliest new NPA central office code activation date * | - | TBD |
| Earliest date central office codes in the new NPA may be ordered through NANPA | - | TBD |

* In Service Date of the New 223 NPA

During the permissive dialing period, subscribers may dial local calls within the overlay area on either a 7-digit or 10-digit basis, but will be encouraged to dial 10-digits. After the permissive period ends, all calls must be dialed using 10-digits.

When preparing for overlay area code relief, carriers are strongly encouraged to prepare their switches to begin sending 10 digits prior to the mandatory 10-digit dialing conversion date for customers.

Central Office Code Listings and NPA Map

A rate center map of the 223/717 NPA overlay is attached. Since NXX information may change over time, please consult the NANPA website at www.nanpa.com, iconectiv’s LERG Routing Guide or the NPA NXX Activity Guide for updated information. Information in the LERG Routing Guide and the NPA NXX Activity Guide is available by license contract from Telecom Routing Administration (TRA), at 732-699-6700.

Dialing Plan

Coincident with the introduction of mandatory 10-digit dialing, the dialing plan for the 223 and 717 NPAs will be as follows:

| Type of call | Call terminating in | Dialing plan |
|--|---------------------------------------|----------------------------------|
| Local & Toll Calls | Overlay Home NPAs (HNPA) | 10-digits (NPA-NXX-XXXX)* |
| Local & Toll Calls | Foreign NPA (FNPA) outside of overlay | 1 + 10-digits (1 + NPA-NXX-XXXX) |
| Operator Services Credit card, collect, third party | HNPA or FNPA | 0 + 10-digits (0 + NPA-NXX-XXXX) |

*1+10 digit dialing for all HNPA and FNPA calls permissible at service provider’s discretion

Network Testing

All international and domestic carriers should ensure that the 223 NPA has been activated throughout their networks. The test number to verify the routing to the new NPA will be in service beginning 90-days prior to effective date of new NPA. The test number will be used to verify the routing to the 223 NPA is: 223-990-TEST (8378). A recorded announcement will indicate that the test call has been successfully completed.

General Information

The information in this planning letter reflects detailed information about NPA relief activities. The information has been derived from commission orders and from industry implementation decisions. The implementation of the plan described in this letter is the responsibility of individual service providers, and NANPA does not guarantee that the activities and plans will occur exactly as described herein.

Contact Information

General questions regarding the relief of the 717 NPA overlay should be directed to Wayne Milby, Senior NPA Relief Planner NANPA, on 804-795-5919. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.

Attached is a list of company and contact information that is provided to assist in the implementation of the relief plan described herein. Because this information is subject to change, NANPA cannot guarantee the completeness or the accuracy of the attached list.
