

Number: PL-510
Date: August 25, 2017
Subject: NPA 658 to Overlay NPA 876 (Jamaica)
Related Previous Planning Letters: None

General Description

On September 15, 2016, the Office of Utilities Regulation in its Determination Notice: Document No, 2014/TEL/11/DET.003, approved an all-services overlay as the relief method for the 876 NPA. The 876 NPA covers the entire island of Jamaica. The **new 658 NPA** overlay will serve the same geographic area currently served by the existing 876 NPA, as shown in the attached NPA overlay map.

Implementation of Relief Plan

Implementation of the 876-658 NPA overlay is as follows:

	TIME	DATE
Start of Network Preparation and Customer Education		February 26, 2016
Start of permissive 10-digit dialing	12:01 AM ET	May 31, 2018
End of permissive dialing and start of mandatory 10-digit dialing	12:01 AM ET	October 30, 2018
Earliest new NPA central office code activation date *	-	November 30, 2018
Earliest date central office codes in the new NPA may be ordered through the OUR	-	September 30, 2018

* In Service Date of the New 658 NPA Overlay

During the permissive dialing period, subscribers may dial local calls within Jamaica on either a 7-digit or 10-digit basis, but will be encouraged to dial 10 digits. After the permissive period ends, all calls must be dialed using 10 digits.

When preparing for overlay area code relief, carriers are strongly encouraged to prepare their switches to begin sending 10 digits prior to the mandatory 10-digit dialing conversion date for customers.

Central Office Code Listings and NPA Map

A rate center map of the 876-658 NPA overlay is not required since local rates are *postalized*, that is, they are not distance sensitive. As NXX information may change over time, please consult iconectiv's LERG Routing Guide or the NPA NXX Activity Guide for updated information. Information in the LERG Routing Guide and NPA NXX Activity Guide is available by license contract from Telecom Routing Administration (TRA), at 732-699-6700.

Dialing Plan

Jamaica has adopted a uniform dialing plan for local calls. Coincident with the introduction of mandatory 10-digit dialing, the dialing plan for the 876 and 658 NPAs will be as follows:

TYPE OF CALL	TERMINATING TO	DIALING PLAN
Local & Toll Calls	Overlay NPAs (Within and between 876 and 658)	10-digits (NPA-NXX-XXXX)
Local & Toll calls	Foreign NPA (FNPA) outside of overlay NPAs	1 + 10-digits (1 + NPA-NXX-XXXX)

Network Testing

All international and domestic carriers should ensure that the 658 NPA has been activated throughout their networks prior to November 31, 2018. The test number to verify the routing to the new NPA will be in service beginning August 31, 2018 through December 31, 2018. The test number to verify the routing to the 658 NPA is 658-NXX-8378 (TEST). A recorded announcement will indicate that the test call has been successfully completed. An NXX from NPA 658 will be temporarily assigned to each local carrier for testing. The NXX will be posted on the OUR website at www.our.org.jm and on the carrier's website.

General Information

The information in this planning letter reflects detailed information about NPA implementation activities. The information has been derived from regulatory orders and from industry implementation decisions. Implementation of the plan described in this letter is the responsibility of individual service providers, and NANPA does not guarantee that the activities and plans will occur exactly as described herein.

Contact Information

Direct general implementation questions regarding the relief of the 876-658 NPA overlay to Curtis Robinson, Chairman Relief Planning Committee, OUR, at +1 (876) 968-6053, Ext. 2303. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.

Attached is a list of company and contact information that is provided to assist in the implementation of the relief plan described herein.
