

NORTH AMERICAN NUMBERING PLAN PLANNING LETTER

Number: PL-NANP-169

Date: April 22, 1999

From: R.C. Breidenbaugh –NANP Administration
202-756-5779, rose.breidenbaugh@nanpa.com

Subject: NANP Overlay of 714 NPA with 657 NPA in Southern California

Substantial number growth in Southern California necessitates providing additional area code relief for the 714 NPA. The relief plan, approved by the California Public Utilities Commission (CPUC) in Decision 99-03-058 dated March 18, 1999, calls for a single comprehensive overlay of the existing 714 NPA.

The new 657 NPA will consist of the same geographic area as the existing 714 NPA with such communities as Anaheim, Orange, Santa Ana, Garden Grove, Huntington Beach, Westminster, Cypress, Buena Park, Fountain Valley, Fullerton, Placentia, Yorba Linda, Brea, La Palma, La Mirada, La Habra and Costa Mesa.

In preparation for the introduction of the overlay code and mandatory 1+10 digit dialing, a permissive dialing period will begin on October 7, 1999, during which subscribers will be encouraged to dial 1+10 digits (i.e. 1 + NPA + NXX + XXXX) for all local, extended area service, and toll calls **both within and between** the 714 and 657 NPAs. Beginning July 7, 2000, at 2:00 a.m. (PDT) all local, extended area service and toll calls **within and between** NPAs involved in the overlay will require 1+10 digits. Implementation of the 657 NPA will be on October 7, 2000, at 2:00 a.m. (PDT).

The attached map illustrates the 714 and 657 NPA configuration after the overlay.

After the beginning of mandatory 1+10 digit dialing on July 7, 2000, the dialing plan for the 714 and 657 NPAs will be as follows:

- All home NPA (HNPA) local calls and Extended Area Service (EAS) calls, and toll calls within the 714 and 657 NPAs will be dialed with a prefix “1” and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1+10 digits).

- All foreign NPA (FNPA) local calls, Extended Area Service (EAS) calls, and toll calls outside the 714 and 657 NPAs will be dialed with a prefix “1” and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1+10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a “0” prefix and 10 digits, i.e. 0 + NPA + NXX + XXXX (0+10 digits).

All international and domestic carriers are asked to ensure that the new 657 NPA has been activated throughout their networks prior to October 7, 2000. Test calls to verify routing to the new NPA code can be made by dialing 657 -900- 0657, effective September 9, 2000. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected March 10, 2000.

The special use NXX codes assigned in the 714 NPA for time service (853) and high volume call in (HVCI) (977) will be duplicated in the new 657 NPA.

General questions concerning the overlay may be directed to Joe Cocke, Lockheed Martin IMS – NPA Relief Planning – Western Region at 805-492-6327. Questions of a technical nature should be directed to the NPA project coordinator of each respective service provider:
