Subject: Extraordinary NPA-Specific Jeopardy Conservation Procedures Announced for 704 NPA  
(North Carolina)

---

NANPA CO Code Administration advises that the 704 NPA has number demand that has increased beyond normal forecasts and is in jeopardy of exhausting prior to when relief can be provided. According to the *Central Office Code (NXX) Assignment Guidelines* (document INC 95-0407-008, revision September 18, 1998), “ A jeopardy condition exists when the forecasted and/or actual demand for NXX resources will exceed the known supply during the planning/implementation interval for relief.” The Purpose of this announcement is to provide the extraordinary NPA-specific conservation measures as defined in Section 9.5 of the *Central Office Code (NXX) Assignment Guidelines* which have become necessary for the 704 NPA.

All remaining codes in the 704 NPA will be rationed through the **Extraordinary Jeopardy Procedures as approved by the Industry until relief is provided in accordance with the respective NPA relief plan.** The attached document, **704 NPA Extraordinary Jeopardy Procedures**, describes the lottery process.

Per the *Central Office Code (NXX) Assignment Guidelines* (document INC 95-0407-008, revision September 18, 1998) Section 9.4 B:
