

## NORTH AMERICAN NUMBERING PLAN LETTER

Number: PL-NANP-188

Date: August 25, 1999

From: R. C. Breidenbaugh - NANP Administration  
202 756-5779; E-mail : rose.breidenbaugh@nanpa.com

Subject: NANP-Split of 318 Numbering Plan Area (NPA) in Louisiana; introduction of NPA 337

---

Substantial telephone number growth in the 318 geographical area code in Louisiana necessitates the activation of an additional NPA to serve this area. The revised relief plan approved by the Louisiana Public Service Commission calls for a geographic split of the 318 NPA and the simultaneous introduction of a new 337 NPA. A description of this relief plan follows.

Shreveport, Louisiana and the northern portion of the existing 318 NPA will retain the current 318 area code and the 337 area code will be assigned to the southern part of the 318 area code region. The attached map illustrates the respective boundaries of the existing and new area codes, and shows affected counties.

The split of the 318 NPA, and the beginning of a permissive dialing period for the 337 NPA, is scheduled to begin on Monday, October 11, 1999 at 12:01 A.M. Eastern Standard Time (EST). The permissive dialing period will end on Monday, July 10, 2000 at 12:01 A.M. EST. During the permissive dialing period, either the 318 or 337 NPA code will be acceptable in a dialed number terminating in the new 337 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to intercept. Type II carriers have an extended permissive period that ends October 9, 2000.

The attached map illustrates the 318 and 337 NPA configuration after the split, showing approximately where the boundary between NPA's will be located. A listing of which NXX codes will be changing their NPA from 318 to 337 and which NXX codes will retain their 318 NPA is attached. This information may also be found in the Local Exchange Routing Guide (LERG). Current information in the LERG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA hotline at 732-699-6700 or accessing the internet web site located at "<http://www.trainfo.com>".

All international and domestic carriers are asked to ensure that the new 337 NPA has been activated throughout their networks prior to October 11, 1999. Test calls to verify routing to the 337 NPA can be made by dialing the following test numbers, furnished by BellSouth, which will be effective September 13, 1999: 337-262-9891 and 337-433-0186.

Calls successfully completed to the test numbers listed above will receive a recorded announcement. The test number will be discontinued after the end of permissive dialing on October 9, 2000.

The following dialing procedures will apply for the Louisiana NPAs:

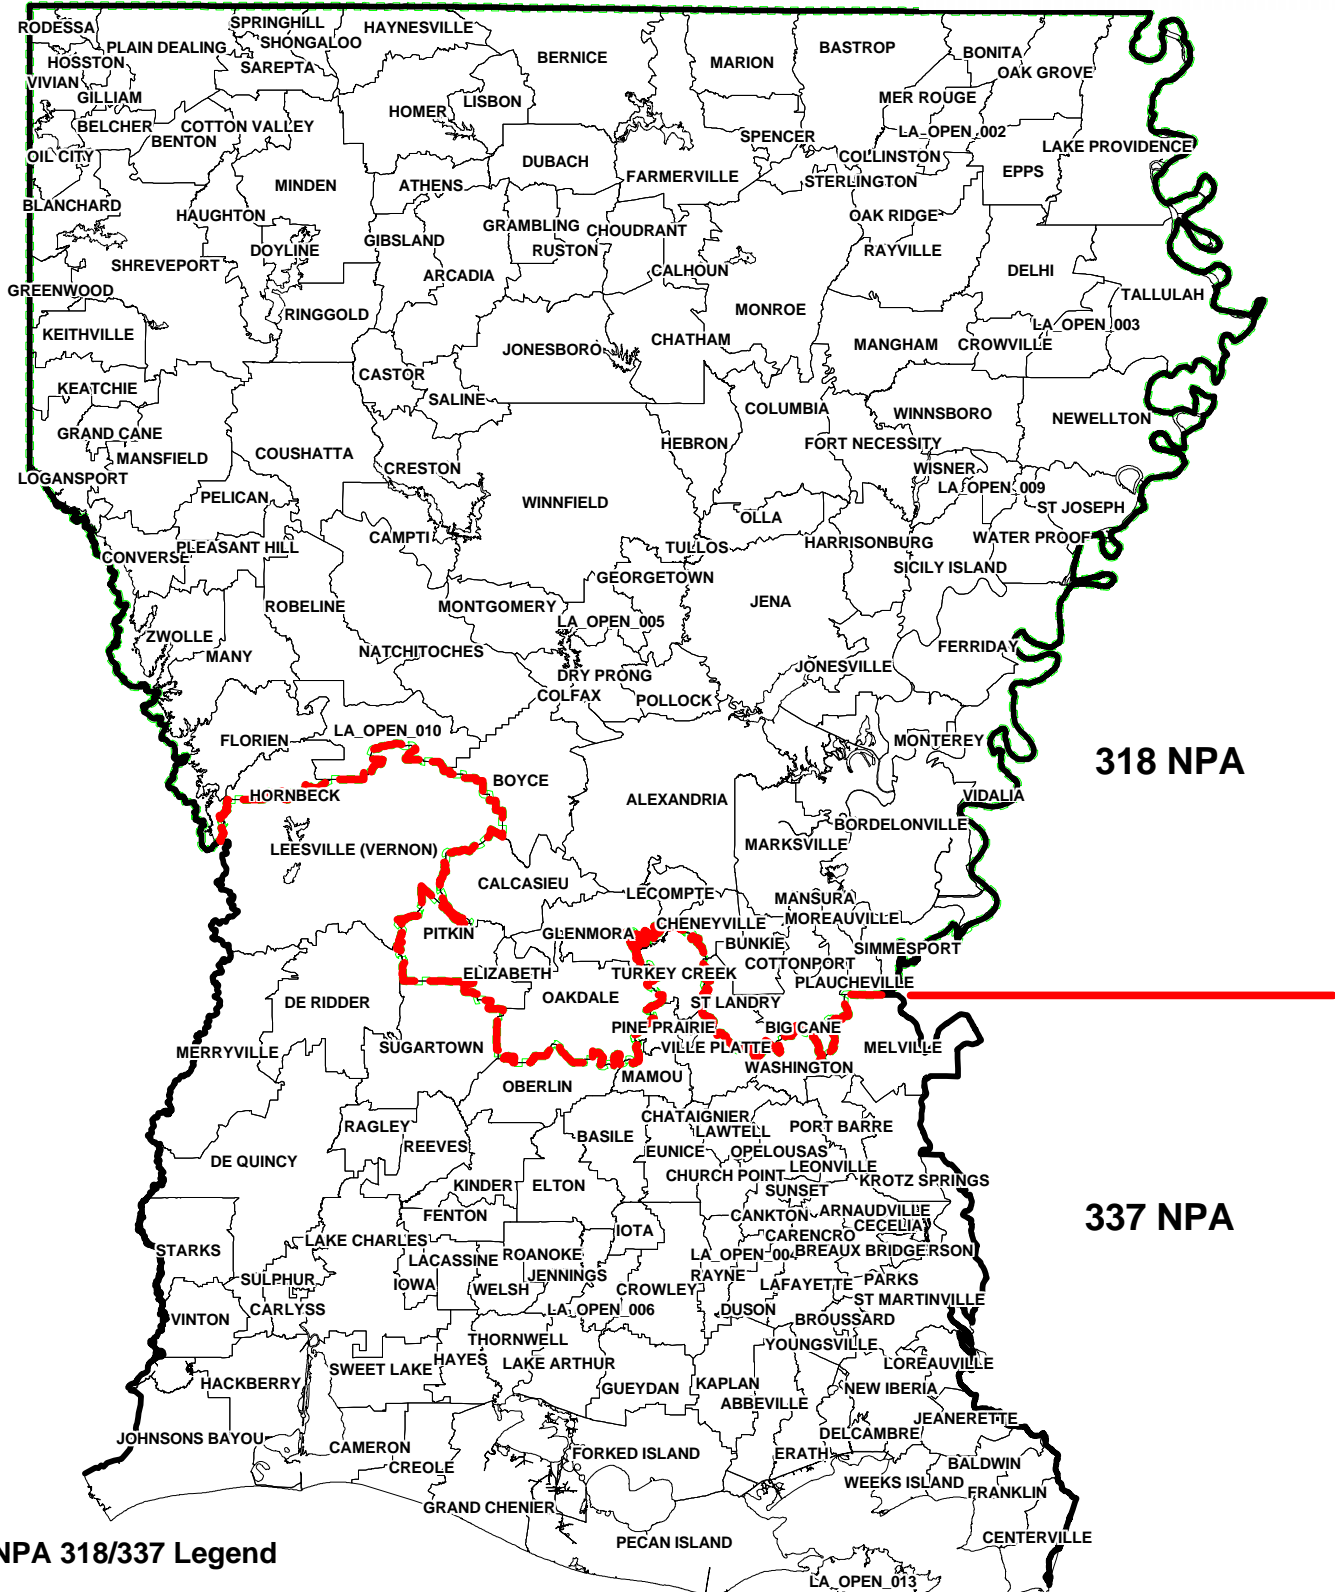

- All home NPA (HNPA) “local” calls will be dialed on a 7-digit basis with no prefix, i.e., NXX + XXXX (7 digits).
- All foreign NPA (FNPA) local calls to existing Extended Area Service (EAS) points will be dialed on a 10-digit basis with no prefix; i.e., FNPA+NXX + XXXX (10 digits).
- All HNPA direct dialed “toll” calls, i.e., calls that incur an additional charge, will be dialed with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits).
- All FNPA direct dialed toll calls will be dialed with a prefix “1” and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

Questions concerning the area code relief may be directed to Ben Childers, Lockheed Martin IMS, NPA Relief Planning, on 573-442-7721.

Questions concerning the contents of this letter may be referred to Rose Breidenbaugh, on 202-756-5779.
