Subject: NANP- Overlay of 510 Numbering Plan Area (NPA) with 341 NPA - California

Substantial number growth in northern California necessitates providing additional area code relief for the 510 NPA. The relief plan, approved by the California Public Utilities Commission (CPUC) in Decision 99-04-024 dated April 1, 1999, calls for a single comprehensive overlay of the existing 510 NPA.

The new 341 NPA will consist of the same geographic area as the existing 510 NPA with such communities as Crockett, Hercules, Pinole, El Sobrante, Richmond, Berkeley, Oakland, Alameda, San Leandro, Hayward, Castro Valley, and Fremont.

In preparation for the introduction of the overlay code and mandatory 1+10 digit dialing, a permissive dialing period will begin on June 15, 1999, during which subscribers will be encouraged to dial 1+10 digits (i.e. 1 + NPA + NXX + XXXX) for all local, extended area service, and toll calls **both within and between** the 510 and 341 NPAs. Beginning April 15, 2000, at 2:00 a.m. (PT) all local, extended area service and toll calls **within and between** NPAs involved in the overlay will require 1+10 digits. Implementation of the 341 NPA will be on July 15, 2000, at 2:00 a.m. (PT).

The attached map illustrates the 510 and 341 NPA configuration after the overlay.

After the beginning of mandatory 1+10 digit dialing on April 15, 2000, the dialing plan for the 510 and 341 NPAs will be as follows:

- All home NPA (HNPA) local calls and Extended Area Service (EAS) calls, and toll calls within the 510 and 341 NPAs will be dialed with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1+10 digits).
- All foreign NPA (FNPA) local calls, Extended Area Service (EAS) calls, and toll calls outside the 510 and 341 NPAs will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1+10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e. 0 + NPA + NXX + XXXX (0+10 digits).

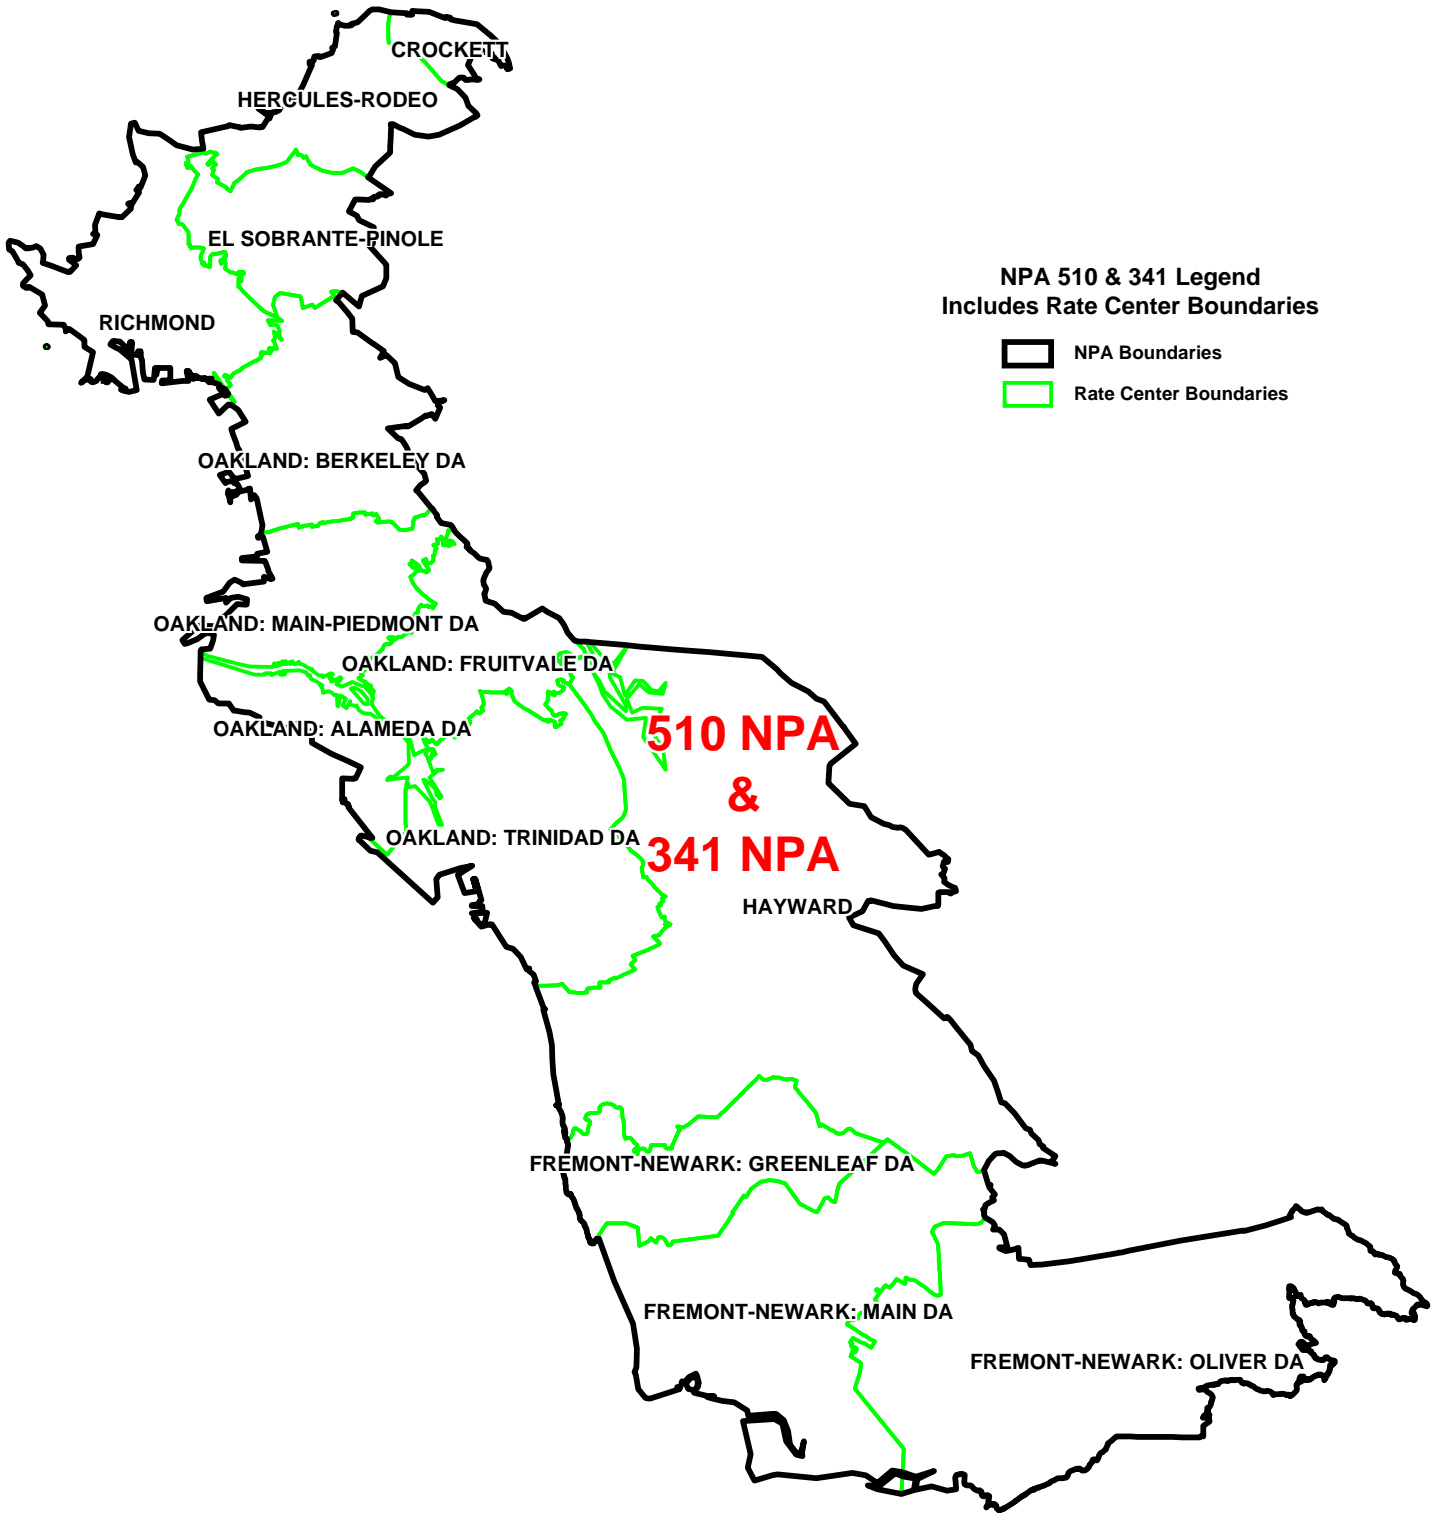

All international and domestic carriers are asked to ensure that the new 341 NPA has been activated throughout their networks prior to July 15, 2000. Test calls to verify routing to the new NPA code can be made by dialing 341 -200- 0341, effective June 10, 2000. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected December 9, 2000.

The special use NXX codes assigned in the 510 NPA for time service (767) and high volume call in (HVCI) (762) will be duplicated in the new 341 NPA.

General questions concerning the overlay may be directed to Joe Cocks, Lockheed Martin IMS – NPA Relief Planning – Western Region at 805-492-6327. Questions of a technical nature should be directed to the NPA project coordinator of each respective service provider:
