Subject: NANP- Overlay of 810 Numbering Plan Area (NPA) with 586 NPA - Michigan

Substantial number growth in northern Michigan necessitates providing additional area code relief for the 810 NPA. The relief plan, approved by the industry, calls for a single comprehensive overlay of the existing 810 NPA.

The new 586 NPA will consist of the same geographic area as the existing 810 NPA with such communities as Brighton, Benton, Center Line, Davison, Eastpointe, Fenton, Flint, Flushing, Grand Blanc, Lapeer, Marysville, Mount Clemons, New Baltimore, Port Huron, Roseville, Saint Clair, Sterling Heights, and Warren.

In preparation for the introduction of the overlay code and mandatory, either 10 digit dialing or 1+10 digit dialing, a permissive dialing period will begin on February 5, 2000, during which subscribers will be encouraged to dial 1+10 digits (i.e. 1 + NPA + NXX + XXXX) for all local, extended area service, and toll calls **both within and between** the 810 and 586 NPAs. Beginning May 6, 2000, at 12:00 a.m. (CST) all local, extended area service and toll calls within and between NPAs involved in the overlay will require 1+10 digits.

The attached map illustrates the 810 and 586 NPA configuration after the overlay.

After the beginning of mandatory dialing on May 6, 2000, the dialing plan for the 810 and 586 NPAs will be as follows:

- All home NPA (HNPA) local calls and Extended Area Service (EAS) calls, and toll calls within the 810 and 586 NPAs will be dialed with either 10 digits, i.e., HNPA + NXX + XXXX , or 1 + 10 digits, 1+ HNPA + NXX + XXXX.
- All foreign NPA (FNPA) local calls, Extended Area Service (EAS) calls, and toll calls outside the 810 and 586 NPAs will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1+10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e. 0 + NPA + NXX + XXXX (0+10 digits).

All international and domestic carriers are asked to ensure that the new 586 NPA has been activated throughout their networks prior to May 6, 2000. Test calls to verify routing to the new NPA can be made to 586-257-1234. Calls successfully completed to the test number will receive a recorded announcement.

General questions concerning the overlay may be directed to Sandy Tokarek, Lockheed Martin IMS – NPA Relief Planning – Central Region at 412-431-4091. Questions of a technical nature should be directed to the NPA project coordinator of each respective service provider:

Rose Breidenbaugh
