

Number: PL-202
Date: December 6, 1999
From: North American Numbering Plan Administration (NANPA)
Subject: 912 NPA Split, Creating 229 and 478 NPAs (Georgia)

The Georgia Public Service Commission has approved a three-way geographic split of the 912 NPA. NANPA has assigned the 478 and 229 NPA codes for this purpose. The 912 NPA will continue to serve customers in the southeastern portion of the existing 912 NPA in the Savannah LATA. The 478 NPA will serve the northern portion of the existing 912 NPA in the Macon and part of the Augusta LATA. The 229 NPA will serve customers in the southwestern portion of the existing 912 NPA in the Albany LATA. This NPA split is shown on the attached map.

Also attached are lists of current 912 NPA central office codes (NXXs) that will remain in the 912 NPA and that will move to the 229 and 478 NPAs. The lists are correct as of November, 1999. Since NXX information may change over time, consult either the *Local Exchange Routing Guide* (LERG) or the *NPA NXX Activity Guide* (NNAG) for updated information. The LERG and NNAG are available from Telcordia's Traffic Routing Administration, 732-699-6700.

The split of the 912 NPA will occur at 2:00 a.m. Eastern Time on Tuesday, August 1, 2000. A twelve-month permissive dialing period will begin simultaneously with the split, ending at 2:00 a.m. Eastern Time on Wednesday, August 1, 2001. During the permissive dialing period either the 912 or the 229 NPA code will be acceptable in a dialed number terminating in the 229 NPA. Similarly, during the permissive period, either the 912 or the 478 NPA code will be acceptable in a dialed number terminating in the 478 NPA. Automatic Number Identification (ANI) Conversion will take place during the permissive dialing period on an office by office basis. It is essential that all service providers comply with the permissive dialing patterns as indicated in the LERG. This action will be necessary throughout the permissive dialing period to prevent call failures and customer dissatisfaction. After the permissive period, all calls dialed with the incorrect NPA code will be routed to an informational announcement. Activation of NXXs in the new area codes will begin on September 15, 2001.

Administrative and Operational Support Systems database changes will occur beginning Friday, October 13, 2000 and be completed Sunday October 15, 2000.

After the beginning of mandatory dialing on August 1, 2001, the dialing plan for the 912, 229, and 478 NPAs will be as follows:

All local calls terminating in the home NPA may be dialed either as 7 digits (NXX+XXXX) or as 10 digits (NPA+NXX+XXXX).

All local calls terminating in other NPAs will be dialed as 10 digits (NPA+NXX+XXXX).

All toll calls will be dialed with the prefix "1" and 10 digits (1+NPA+NXX+XXXX).

All operator assisted calls, including credit card, collect, and third party calls, will be dialed with the prefix "0" and 10 digits (0+NPA+NXX+XXXX).

All international and domestic carriers should ensure that the new 229 and 478 NPAs will be translated throughout their networks no later than August 1, 2000. Test calls to verify routing to the new NPAs can be made by dialing 229-205-7777 or 478-201-7777. These numbers, provided by BellSouth, will be available from July 1, 2000 until October 15, 2001. A recorded announcement will indicate successful completion of the call.

Direct questions about the relief of the 912 NPA to Thomas C. Foley, NPA Relief Planner on 407-389-8929. Direct other questions to the particular service provider's NPA project coordinator for the area.
