Date: February 1, 2000
From: NANPA
Subject: 707 NPA Splits, Creating 369 and 627 NPAs - California

The California Public Utilities Commission (CPUC) in Decision 99-12-049 dated December 16, 1999, approved a relief plan calling for a three-way geographic split of the 707 NPA.

The split will take place in two phases. Phase one will introduce the 369 NPA, consisting of the southern geographic area of the existing 707 NPA, including the communities of Benicia, Dixon, Fairfield, Rio Vista, Suisun City, Vallejo, and Vacaville.

Phase two will introduce the new 627 NPA, consisting of the central geographic area of the 707 NPA, including the communities of Bodega Bay, Calistoga, Cloverdale, Guerneville, Healdsburg, Kenwood, Napa, Petaluma, Santa Rosa, Sonoma and Yountville.

Phase one of the 707 NPA split, introducing the new 369 NPA, will take place at 2:00 AM Pacific Time on December 2, 2000. This date and time also mark the beginning of a permissive dialing period, during which either 707 or 369 will be acceptable in a dialed number terminating in the new 369 NPA. Also, during the permissive dialing period, both 7-digit and 1+10-digit dialing will be permissible between the 707 and 369 NPAs. The permissive dialing period will end at 2:00 AM Pacific Time on June 2, 2001 and will be followed by a recorded announcement period until September 8, 2001. After September 8, 2001, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

The six rate areas changing to the new 369 NPA are Dixon, Vacaville, Rio Vista, Benicia, Vallejo, and Fairfield-Suisun. Note that the Dixon rate area is in LATA 726 and that the other rate areas are in LATA 722.

All international and domestic carriers should ensure that the new 369 NPA code has been activated and tested throughout their networks prior to December 2, 2000. Test calls to verify routing to the new NPA code can be made by dialing 369-800-0369, effective November 4, 2000. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected on or about July 7, 2001.

Phase two of the 707 NPA split, introducing the new 627 NPA, will take place at 2:00 AM Pacific Time on October 13, 2001. This date and time also mark the beginning of a permissive dialing period, during which either 707 or 627 will be acceptable in a dialed number terminating in the new 627 NPA. Also, during the permissive dialing period, both 7-digit and 1+10-digit dialing will be permissible between the 707 and 627 NPAs. The permissive dialing period will end at 2:00 AM Pacific Time on April 13, 2002, and will be followed by a recorded

announcement period until July 13, 2002. After July 13, 2002, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

The twenty-six rate areas changing to the new 627 NPA are Annapolis, Bodega Bay, Calistoga, Casadero, Cloverdale, Forestville, Geyserville, Guerneville, Healdsburg, Kenwood, Lake Berryessa, Monte Rio, Napa, Occidental, Petaluma: Swift, Petaluma: Main, Santa Rosa, Sebastapol, Sonoma, St. Helena, Timber Cove: Sea Ranch, Timber Cove: Timber Cove, Tomales, Valley Ford, Windsor and Yountville. These rate areas are in LATA 722.

All international and domestic carriers should ensure that the new 627 NPA code has been activated and tested throughout their networks prior to October 13, 2001. Test calls to verify routing to the new NPA code can be made by dialing 627-800-0627, effective September 15, 2001. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected on or about May 11, 2002.

The dialing plans for both the 369 and the 627 NPAs will be the same as the current 707 NPA dialing plan, namely:

- All home NPA (HNPA) calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or with a prefix “1” and 10 digits; i.e., 1+HNPA+NXX+XXXX (1+10 digits), as desired. (This includes inter-LATA calls to and from the Dixon rate area.)
- All foreign NPA (FNPA) local and toll calls will be dialed with a prefix “1” and 10 digits; i.e., 1+FNPA+NXX+XXXX (1+10 digits).
- All operator-assisted calls, including credit card, collect, and third-party calls, will be dialed with a “0” prefix and 10 digits; i.e., 0+NPA+NXX+XXXX (0+10 digits).

Special use NXX codes assigned in the 707 NPA for time service (767) and high volume call in (HVCI) (270) will be duplicated in the new 369 and 627 NPAs.

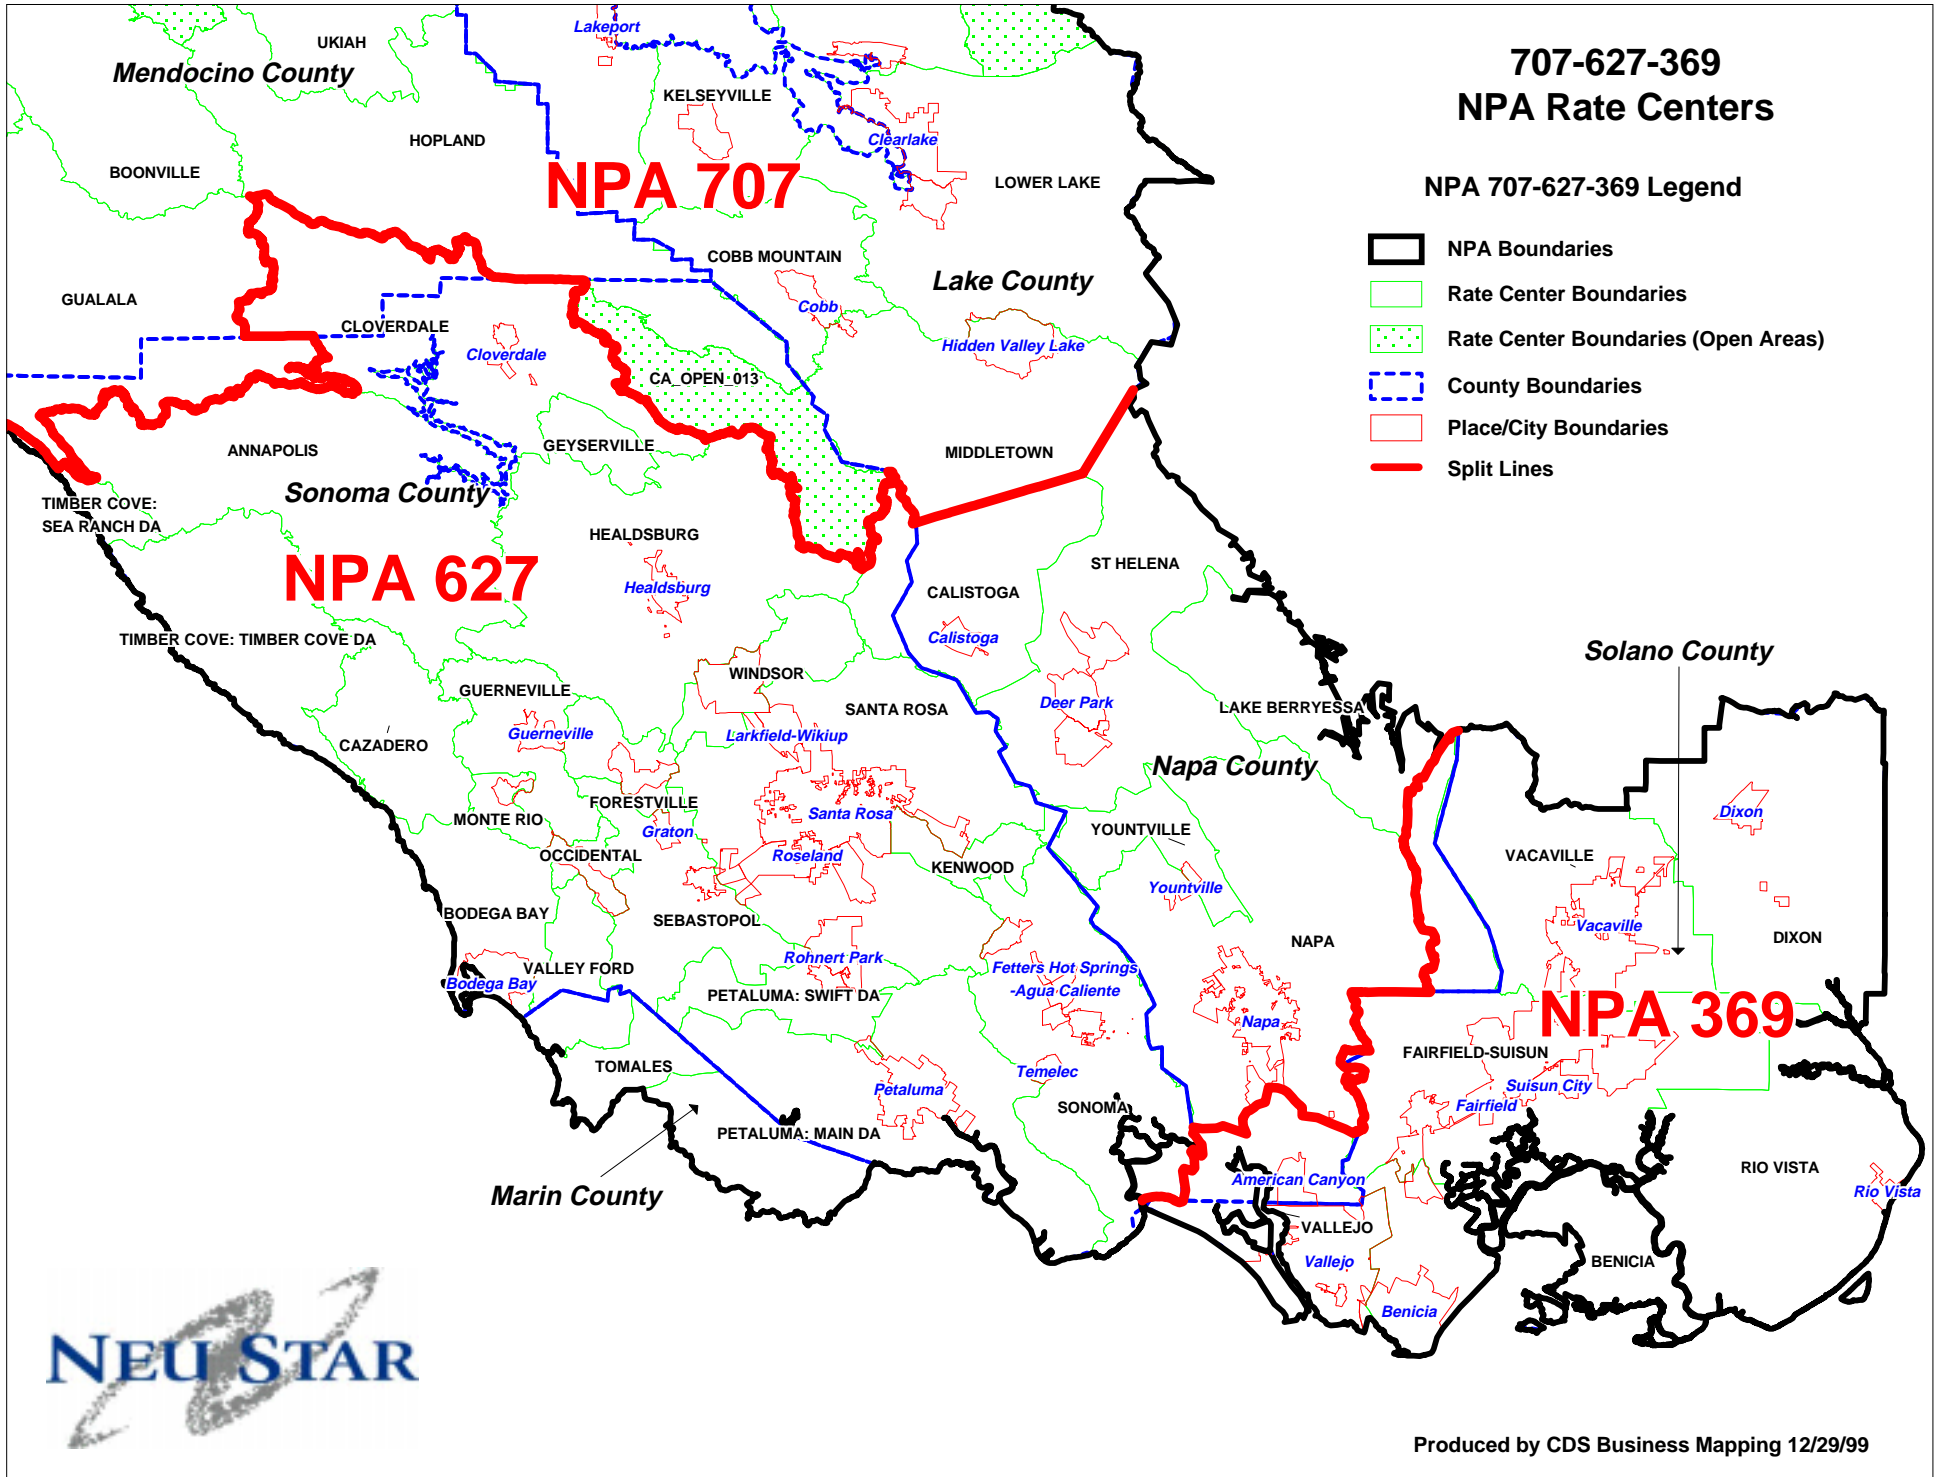

The attached maps illustrate the 707, 369 and 627 NPA configuration after the two splits are completed. Also attached are listings of the assigned central office codes (NXXs) and rate areas that will be associated with the 369 and 627 NPAs. These lists reflect assignments published in the LERG as of December 1, 1999. Since NXX information may change over time, interested parties should consult the LERG or the NPA NXX Activity Guide (NNAG) for updated information. Current information in the NNAG can be downloaded free of charge from and from the LERG is available by license contract from Telcordia’s Traffic Routing Administration (TRA) group, which can be contacted through the TRA hotline at 908-699-6700.

General questions concerning this three-way split may be directed to Joe Cocke, NeuStar– NPA Relief Planning – Western Region at 805-492-6327. Questions of a technical nature should be directed to the NPA project coordinator of each respective service provider.
