

Number: PL-219
Date: March 1, 2000
From: North American Numbering Plan Administration (NANPA)
Subject: NPA 682 to Overlay NPA 817 (Texas)

In Project No. 20699, Numbering Plan Area Relief Planning for the 817 Area Code, Order issued December 16, 1999, the Public Utility Commission of Texas approved a full services distributed overlay as the relief method for the 817 NPA that serves Fort Worth and the surrounding area including the cities of Arlington, Grandview, Weatherford and Rhome. A map showing the area served by the 817 NPA and the new 682 NPAs is attached.

In preparation for the overlay, permissive 10-digit dialing of local calls will begin at 12:01 AM CDT on April 8, 2000 and will continue until 12:01 AM CDT October 7, 2000. During the permissive period callers may dial either 7 or 10-digits for local calls originating in the 817 NPA. Beginning October 7, 2000, dialing 10-digits for local calls originating in the 817 and 682 NPAs will be mandatory. The intercept period ends December 9, 2000.

The dialing plan described below applies to the 817 NPA after the beginning of mandatory on October 7, 2000 and to the 682 NPA after its introduction on October 7, 2000.

- All local calls must be dialed as 10 digits (NPA+NXX+XXXX).
- All toll calls must be dialed as 1+10 digits (1+NPA+NXX+XXXX).
- Operator-assisted, third-party and credit-card calls must be dialed as 0+10-digits (0+NPA+NXX+XXXX).

All international and domestic carriers should ensure that the new 682 NPA code has been activated throughout their networks prior to April 8, 2000. Test calls to verify routing to the new 682 NPA can be made by dialing 682-672-8378 (switch CLLI is FTWOTXED03T). Calls successfully completed to the test number will receive a recorded announcement. The test number will be active from March 8, 2000 until October 7, 2000.

Central office codes assigned in the 682 NPA may not be activated prior to October 7, 2000.

Refer general questions about this relief activity to Ben Childers, NANPA, at 573-442-7721. Direct specific questions to the appropriate service provider.
