

Number: PL-250  
Date: November 10, 2000  
From: North American Numbering Plan Administration (NANPA)  
Subject: 310 NPA Splits, Creating 424 NPA (California)

---

On September 21, 2000, the California Public Utilities Commission (CPUC), in Decision 00-09-073, approved a relief plan calling for a geographic split of the 310 NPA, which currently serves the west Los Angeles and the greater south bay area of Southern California. This Planning Letter supercedes all previous NANPA PL's relating to an overlay of the 310 NPA.

The new 424 NPA will consist of the southern geographic area of the existing 310 NPA with such communities as Avalon, Carson, Compton, El Segundo, Hawthorne, Inglewood, Gardena, Lynwood, Manhattan Beach, Paramount, Redondo Beach, Hermosa Beach, Torrance, Lomita, Palos Verdes Estates, Rolling Hills and San Pedro changing to the 424 NPA. The NXXs in the nine rate areas of Avalon, El Segundo, Hawthorne, Redondo, Compton-Compton, Compton-Gardena, Torrance, Lomita and San Pedro will change to the 424 NPA. The northern portion of the existing 310 NPA will retain the 310 NPA.

The CPUC ordered telecommunications carriers to begin immediately any necessary network conversions and E-911 reconfigurations. The work must be completed within nine months in preparation for the beginning of permissive dialing, when it is ordered. The CPUC will notify NANPA when it determines that the 310 NPA will exhaust within eight months. NANPA will then notify the industry that permissive dialing must begin within two months, and will issue an updated planning letter reflecting the permissive and recording announcement periods.

A three month permissive dialing period will be provided, during which either the 310 or the 424 NPA code will be acceptable in a dialed number terminating in the new 424 NPA. After the permissive period, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG) will be routed to intercept.

The attached map illustrates the 310 and 424 NPA configuration after the split is completed. Also attached are listings of the assigned central office codes (NXXs) and Rate Areas that will be associated with the 310 and 424 NPAs. NANPA will include in the updated PL regarding whether any of the Wireless Type II NXXs will change to the 424 NPA. These lists reflect assignments published in the LERG as of October 1, 2000. Since the attached NXX information may change over time, updated information may be found either in the LERG or the NPA NXX Activity Guide (NNAG). Current information in the NNAG is free of charge and from the LERG

is available by license contract from Telcordia's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA hotline at 732-699-6700.

All international and domestic carriers are asked to ensure that the new 424 NPA code has been activated throughout their networks. Test calls to verify routing to the new NPA can be made by dialing the test number: (424) 654-0424 once made available.

The dialing plan for the 310 NPA and 424 NPA will remain the same, namely:

- All home NPA (HNPA) calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or with a prefix "1" and 10 digits, i.e., 1+HNPA+NXX+XXXX (1+10 digits), as desired.
- All foreign NPA (FNPA) local calls and toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1+FNPA+NXX+XXXX (1+10 digits)
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits (0+NPA+NXX+XXXX).

General questions concerning the geographic split may be directed to Joe Cocke, NeuStar, Inc.– NPA Relief Planning – Western Region at 805-520-1945. Questions of a technical nature should be directed to the NPA project coordinator of each respective service provider:
