

Number: PL-257
Date: January 22, 2001
From: North American Numbering Plan Administration (NANPA)
Subject: 804 NPA Split; Creating 434 NPA (Virginia)

On December 1, 2000, the Virginia State Corporation Commission (SCC) approved a geographic split followed by an overlay as the relief method for the 804 NPA (PUC990159). The western section of the current 804 NPA is assigned a new area code, 434, while the eastern section, including metropolitan Richmond, will keep 804 and receive an overlay code in about six years. The attached map identifies the NPA boundaries after the split. The SCC issued a subsequent order on December 21, 2000, to provide more time and a more orderly implementation of customer education, required network changes, permissive dialing and conversion to mandatory dialing.

Also attached is a listing of the current 804 NPA central office (NXX) codes, rate centers, and Common Language Location Identifiers (CLLI) that will remain in the 804 NPA and those that will move to the new 434 NPA. Wireless NXX codes retaining the 804 NPA as a result of the extended permissive option are uniquely marked in the attached listings. This information is current as of January 1, 2001. Since NXX information may change over time, consult the Local Exchange Routing Guide (LERG) or the NXX Activity Guide (NNAG) for updated information. Information in the LERG and NNAG is available by license contract from Telcordia Technologies Traffic Routing Administration (TRA), at 732-699-6700.

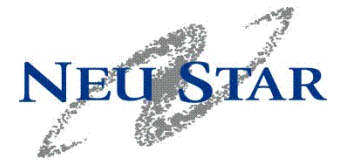

The split of the 804 NPA, and the beginning of the permissive dialing period, will take place at 12:01 AM (Eastern) on June 1, 2001. The permissive period will end at 12:01 AM (Eastern) on January 15, 2002. During the permissive period, either the 804 or 434 NPA code will be acceptable in a dialed number terminating in the new 434 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to intercept. No records conversion date was set during the Industry Implementation Meeting on Thursday, January 4, 2001 in Richmond, Virginia.

After the beginning of mandatory dialing on January 15, 2002, the dialing plan for the 804 and 434 NPAs will be as follows:

- All local calls terminating in the home NPA will be dialed as 7-digits (NXX+XXXX)
- All local calls, including interstate, terminating in a foreign NPA will be dialed as 10-digits (NPA+NXX+XXXX) without a prefix.
- All toll calls will require the prefix "1" and ten digits (1+NPA+NXX+XXXX).
- All operator-assisted calls, including credit card, collect, and third party calls, will require the prefix "0" and 10 digits (0+NPA+NXX+XXXX).

All international and domestic carriers should ensure that the new 434 NPA has been activated throughout their networks prior to June 1, 2001. Test calls to verify routing to the 434 NPA can be made by dialing 434-333-8378. The test number will be in service beginning May 1, 2001 until April 30, 2002. A recorded announcement will indicate that the test call has been successfully completed to the new NPA.

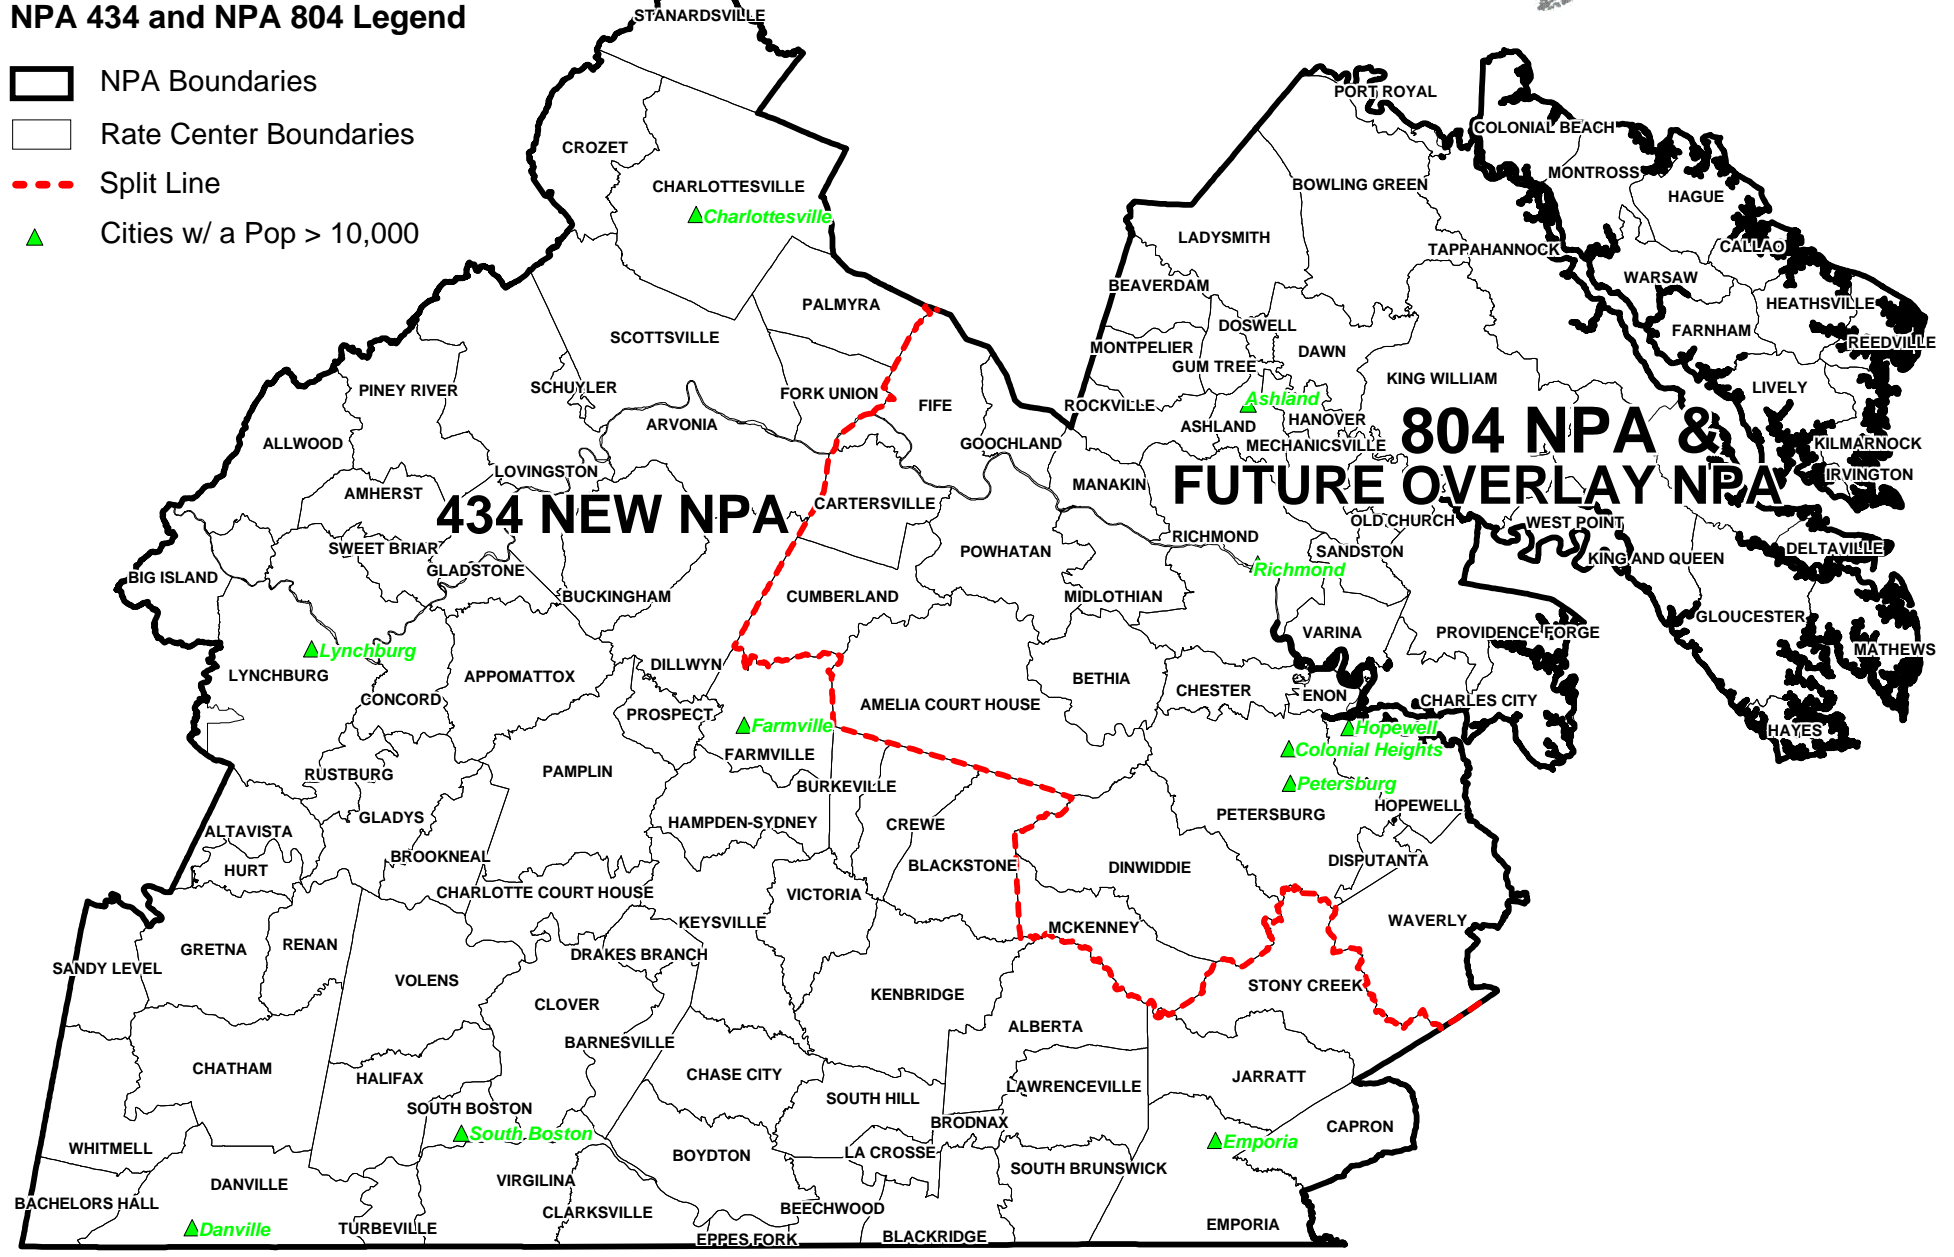

General questions concerning the relief of the 804 NPA should be directed to Pamela Kenworthy, NPA Relief Planner – Eastern Region NANPA, at (973) 267-7812. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.
