

Number: PL – 275
Date: May 1, 2001
From: North American Numbering Plan Administration (NANPA)
Subject: 540 NPA Split; Creating 276 NPA (Virginia)

On February 22, 2001, the Virginia State Corporation Commission (SCC) approved a phased implementation of a three-way geographic split as the relief method for the 540 NPA (PUC990207). In the first phase, described in this planning letter, the current 540 area would be split between Southwest Virginia, which will be assigned the 276 NPA, and the Roanoke and upper Shenandoah Valleys, which will retain the 540 NPA. The attached map identifies the NPA boundaries after the split.

Also attached is a listing of the current 540 NPA central office (NXX) codes, rate centers, and Common Language Location Identifiers (CLLI) that will remain in the 540 NPA and those that will move to the new 276 NPA. Wireless carriers serving numbers in the 276 NPA were granted the option of allowing their customers to retain their existing telephone numbers until the customers upgrade their wireless telephones, but in no event later than two years following the date of Order; viz., February 22, 2003. Wireless NXX codes retaining the 540 NPA as a result of the extended permissive option are noted in the attached listings.

This information is current as of April 25, 2001. Since NXX information may change over time, consult the Local Exchange Routing Guide (LERG) or the NXX Activity Guide (NNAG) for updated information. Information in the LERG and NNAG is available by license contract from Telcordia Technologies, Traffic Routing Administration (TRA), at 732-699-6700.

The split of the 540 NPA, and the beginning of the permissive dialing period, will take place at 12:01 AM (Eastern) on September 1, 2001. The permissive period will end at 12:01 AM (Eastern) on March 16, 2002. During the permissive period, either the 540 or 276 NPA code will be acceptable in a dialed number terminating in the new 276 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to intercept. No records conversion date was set during the Industry Implementation Meeting on April 10, 2001 in Roanoke, Virginia.

After the beginning of mandatory dialing on March 16, 2002, the dialing plan for the 540 and 276 NPAs will be as follows:

- All local calls terminating in the home NPA will be dialed as 7-digits (NXX+XXXX)
- All local calls, including interstate, terminating in a foreign NPA will be dialed as 10-digits (NPA+NXX+XXXX) without a prefix.
- All toll calls will require the prefix “1” and ten digits (1+NPA+NXX+XXXX).

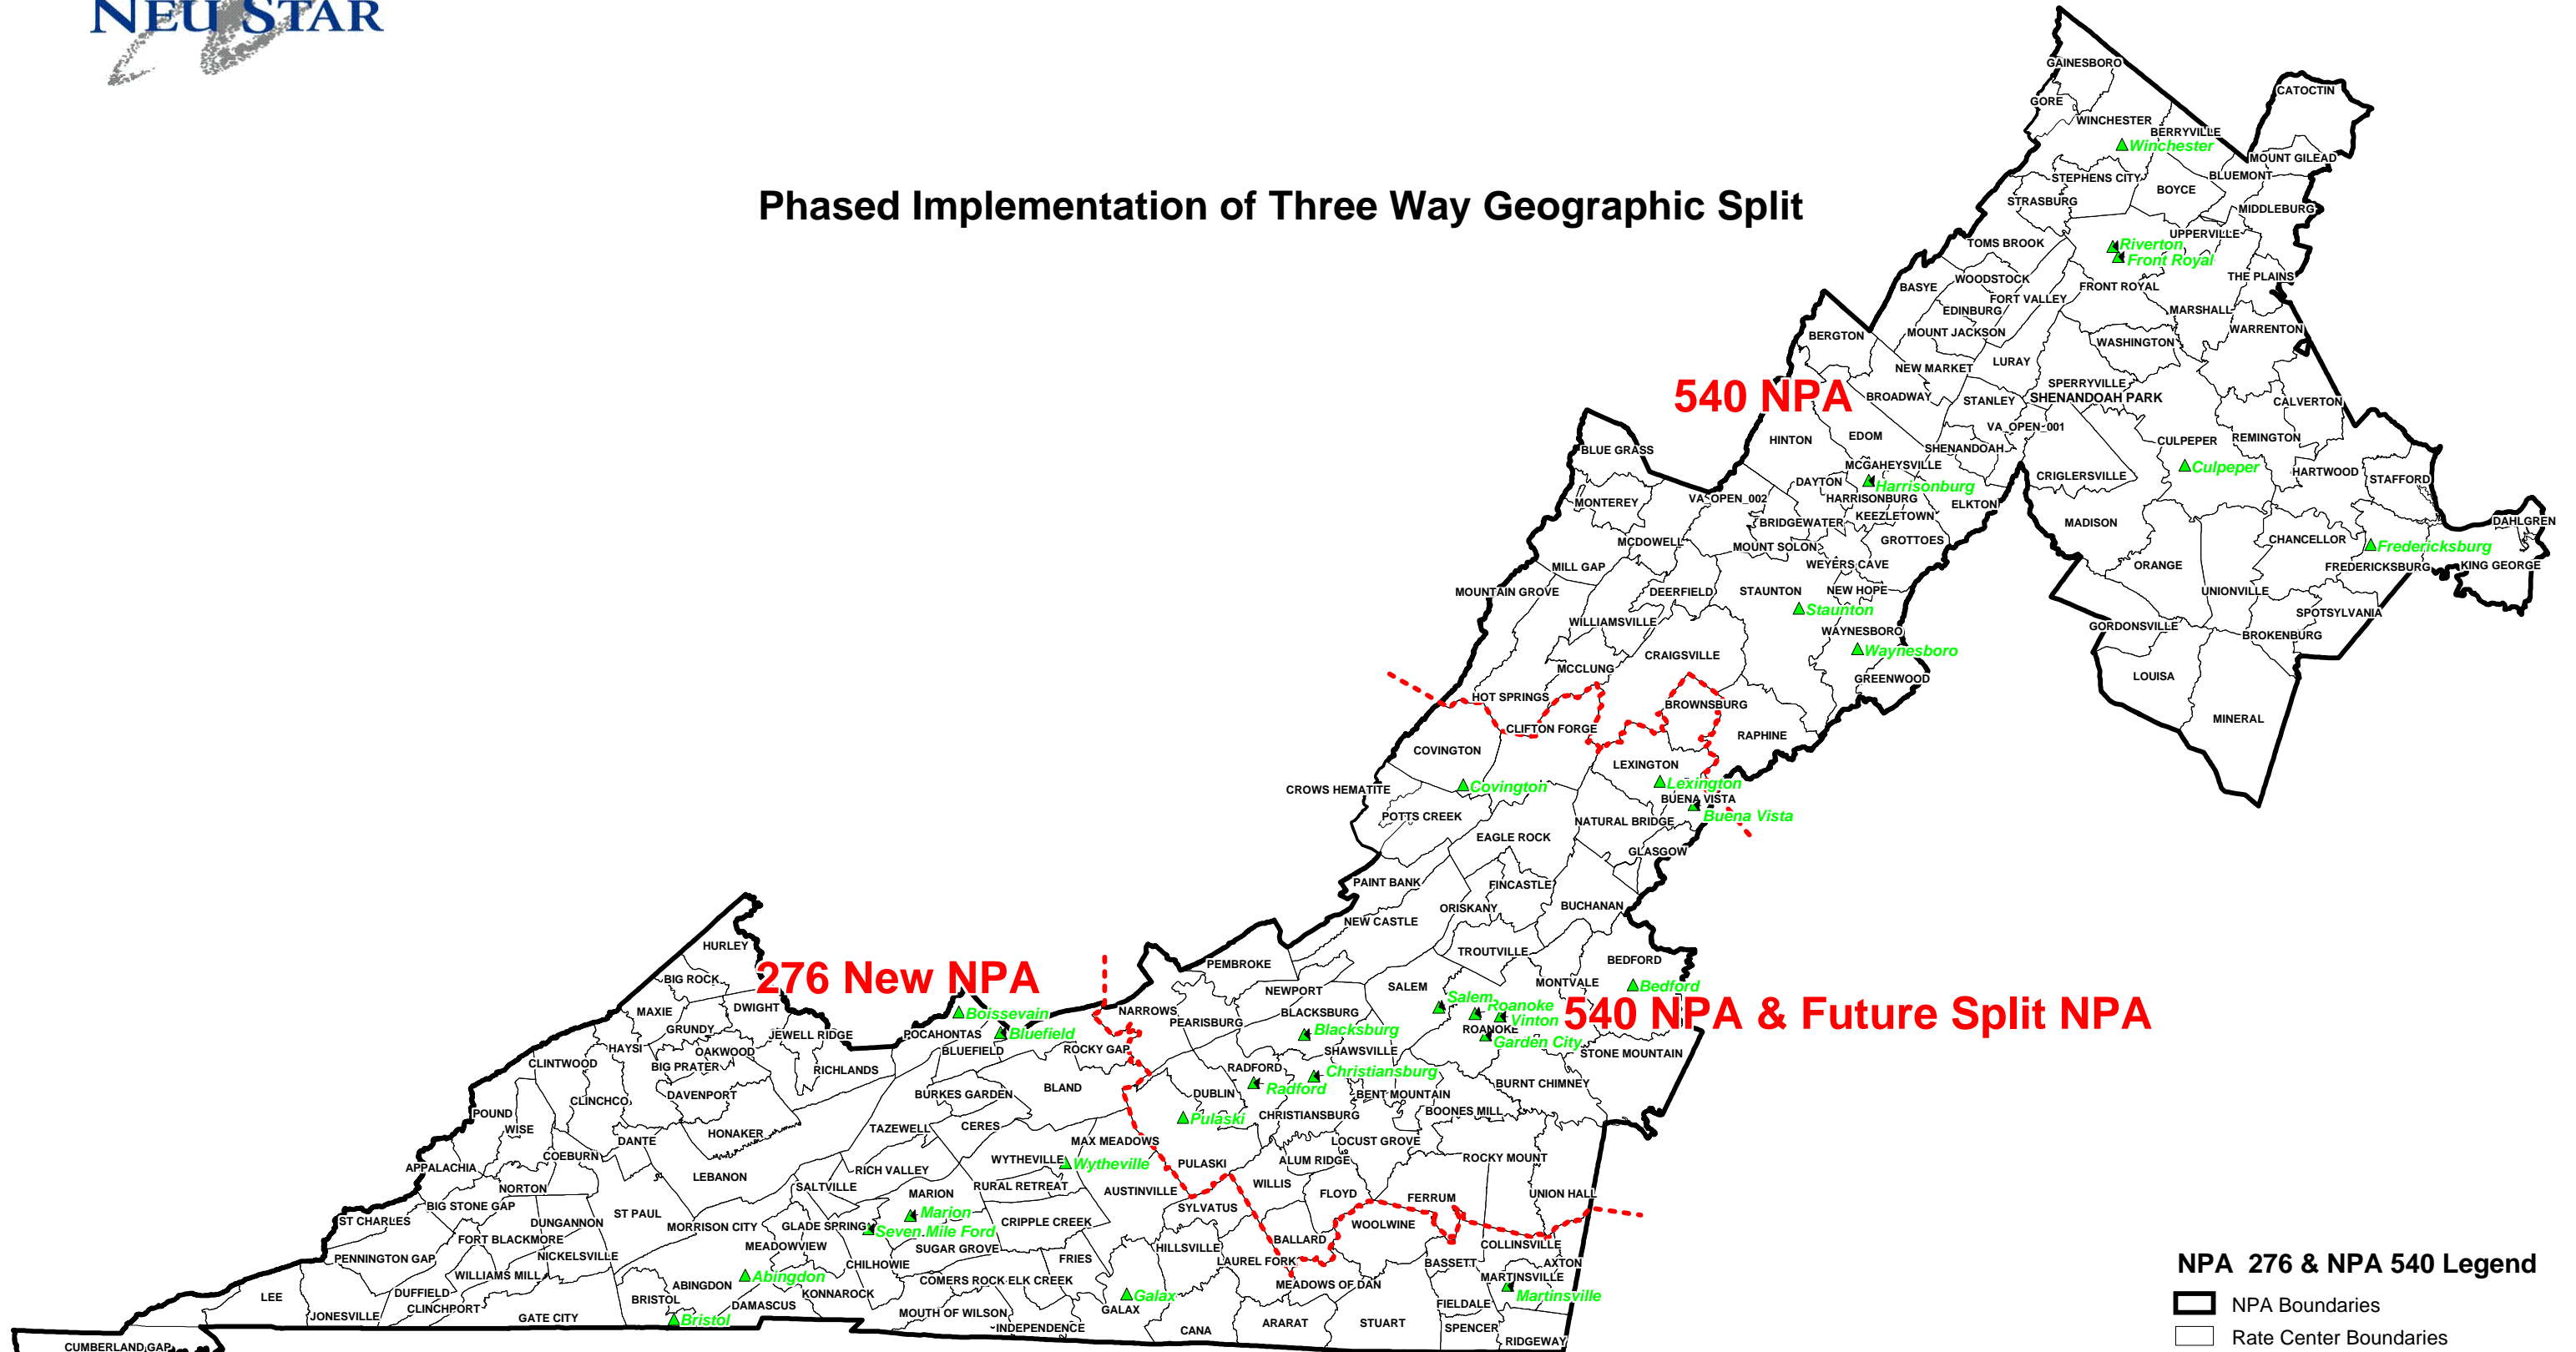

- All operator-assisted calls, including credit card, collect, and third party calls, will require the prefix “0” and 10 digits (0+NPA+NXX+XXXX).

All international and domestic carriers should ensure that the new 276 NPA has been activated throughout their networks prior to September 1, 2001. Test calls to verify routing to the 276 NPA can be made by dialing 276-672-8378. The test number will be in service beginning August 1, 2001 through July 31, 2002. A recorded announcement will indicate that the test call has been successfully completed to the new NPA.

General questions concerning the relief of the 540 NPA should be directed to Pamela Kenworthy, NPA Relief Planner – Eastern Region NANPA, at (973) 267-7812. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.

Phased Implementation of Three Way Geographic Split
