

Number: PL-294
Date: August 7, 2001
From: North American Numbering Plan Administrator (NANPA)
Subject: 616 NPA Split; Creating 269 NPA (Michigan)

On June 5, 2001, the Michigan Public Service Commission (“Commission”) in case number U-12850, approved a geographic Split as the relief method for the 616 NPA, which serves the southwestern region of Michigan.

The new 269 NPA will serve the southern portion of the existing 616 NPA. Areas to be served by NPA 269 include Kalamazoo, Battle Creek, Three Rivers, South Haven, Benton Harbor and Sturgis. The attached map identifies the NPA boundaries after the split.

Also attached is a listing of the 616 NPA central office codes, rate centers, and Common Language Location Identifiers (CLLI) that will remain in the 616 NPA and those that will move to the new 269 NPA. This information is current as of July 31, 2001. Since NXX information may change over time, consult the Local Exchange Routing Guide (LERG) or the NXX Activity Guide (NNAG) for updated information. Information in the LERG and NNAG is available by license contract from Telcordia Technologies, Traffic Routing Administration (TRA), at 732-699-6700.

The split of the 616 NPA and the beginning of the permissive dialing period, will take place at 12:01 AM (Eastern) on July 13, 2002. The permissive dialing period will end at 12:01 AM (Eastern) on February 15, 2003. During the permissive dialing period, either the 616 or 269 NPA code will be acceptable in a dialed number terminating in the new 269 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to intercept. No records conversion date was set during the Industry Implementation Meeting held on July 17, 2001.

After the beginning of mandatory dialing on February 15, 2003, the dialing plan for the 269 and 616 NPAs will be as follows:

- All local calls terminating within the Home NPA will be dialed as 7-digits (NXX+XXXX).
- All local calls terminating within a foreign NPA will be dialed as 1+10-digits (1+NPA+NXX+XXXX).
- All toll calls will require dialing “1” followed by 10 digits (1+NPA+NXX+XXXX).
- All operator assisted calls, including credit card, collect, and third-party calls will require dialing “0” followed by 10-digits (0+NPA+NXX+XXXX).

International and domestic carriers should ensure that the new 269 NPA has been activated throughout their networks prior to July 13, 2002. Test calls to verify the routing to the 269 NPA can be made by dialing (269) 344-7160. The test number will be in service beginning June 13, 2002 through March 15, 2003. A recorded announcement will indicate that the test call has been successfully completed.

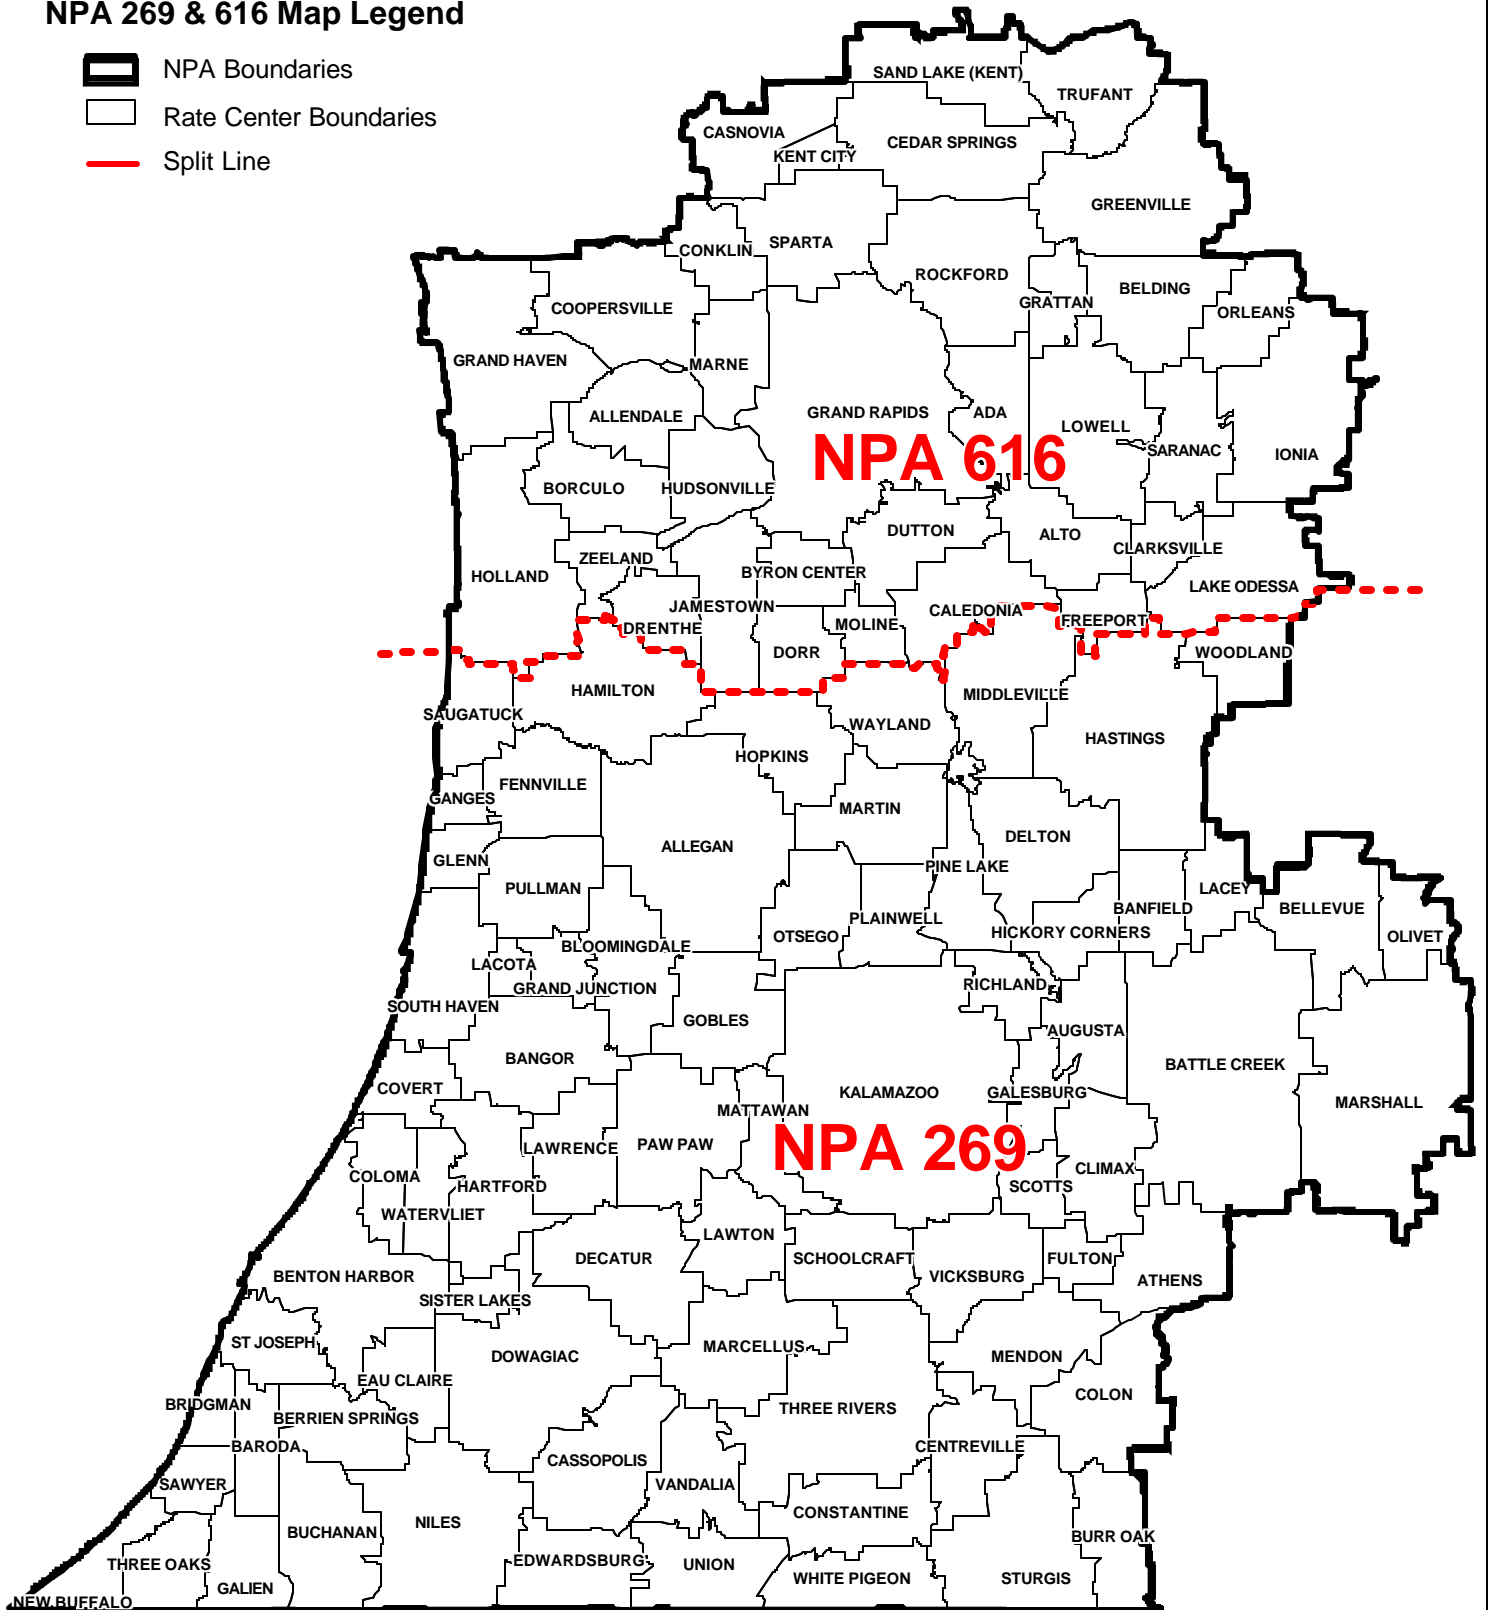

General questions regarding the relief of the NPA 616 should be directed to Frank Colaco, Senior NPA Relief Planner NANPA, on 973-740-9100. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.
