

## North American Numbering Plan Planning Letter

Number: PL-NANP-019  
Date: October 31, 1996  
From: J. N. Deak - NANP Administration  
908-699-6612, jdeak @ notes.cc.bellcore.com  
Subject: NANP-Split of 206 (Washington State) Numbering Plan Area (NPA)

---

We have been advised by US WEST that substantial number growth in the Seattle area of Washington State necessitates splitting the existing 206 NPA into three geographic areas and the simultaneous introduction of two new NPA codes: 253 and 425. The following is a description of this relief plan.

The existing 206 NPA will be divided into three NPAs. The "core" area, consisting of Seattle, Richmond Beach and the northern portion of the Des Moines exchange plus Bainbridge, Mercer, and Vashon Islands, will retain the 206 NPA. The second area, consisting of Everett, Renton/Maple Valley and the existing 206 NPA exchanges north and east of Lake Washington, will change to the new 425 NPA. The third area, consisting of Kent, Federal Way and Tacoma plus Lakebay, Fox Island, Gig Harbor, and Burley, will change to the new 253 NPA.

The split of the 206 NPA and the beginning of a permissive dialing period for the 253 and 425 NPAs is scheduled for 12:01 AM EDT on Sunday, April 27, 1997. The permissive period will end at 12:01 AM EST on Sunday November 16, 1997. During the permissive period, either 206 or 253 will be acceptable in a dialed number terminating in the new 253 NPA. Similarly, either 206 or 425 will be acceptable in a dialed number terminating in the new 425 NPA. During the permissive period, calls to the new 253 NPA will not be allowed using the 425 NPA code, nor will calls be allowed to the 425 NPA using the 253 NPA code. After the permissive period, all calls must utilize the proper NPA code.

The attached map (Attachment A) illustrates the 206, 253 and 425 configuration after the split, showing approximately where the boundary between the NPAs will be located. Also attached are listings of the assigned central office codes (NXXs) for the 206, 253 and 425 NPAs as of September 26, 1996. These listings, which provide information for each NXX such as NPA, location, switch identification, the type of carrier and rate center, are sorted by NXX on Attachment B, and by location within each NPA on Attachment C. Updated NXX listings will be made continuously available via US WEST's Fax-on-Demand Service by dialing 1-800-450-6267. These listings will include NXX codes only, and will not include city or switching entity names. Updated NXX information may also be found either in the Local Exchange Routing Guide (LERG) or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 908-699-6700.

Implementation of the new NPAs will require a new local dialing plan as described below. No local calling area changes are anticipated.

- All home NPA (HNPA) local calls may continue to be dialed on a 7-digit basis with no prefix, i.e., NXX + XXXX (7 digits). These calls may also be dialed on a 10-digit basis with no prefix, i.e., HNPA + NXX + XXXX (10 digits).
- All HNPA toll calls, i.e., calls that generally incur an extra charge, will be dialed with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits).
- All foreign NPA (FNPA) local calls will be dialed on a 10-digit basis with no prefix, i.e., FNPA + NXX + XXXX (10 digits). This includes all local calls between the 206, 253, 425 and 360 NPAs.
- All foreign NPA (FNPA) toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

All international and domestic carriers are asked to ensure that the new 253 and 425 NPAs have been activated throughout their networks prior to April 27, 1997. Similarly, all vendors and users of PBX equipment in the Seattle area are encouraged to verify that telephone systems can accommodate 10-digit dialing prior to November 16, 1997. Test calls to verify routing to the new NPAs can be made by dialing: 253-627-0062 and 425-452-0009. The test numbers will be operational from within the Seattle Local Access and Transport Area (LATA) on April 13, 1997. Calls successfully completed to the test numbers will receive a recorded announcement. The test numbers will be disconnected on November 30, 1997.

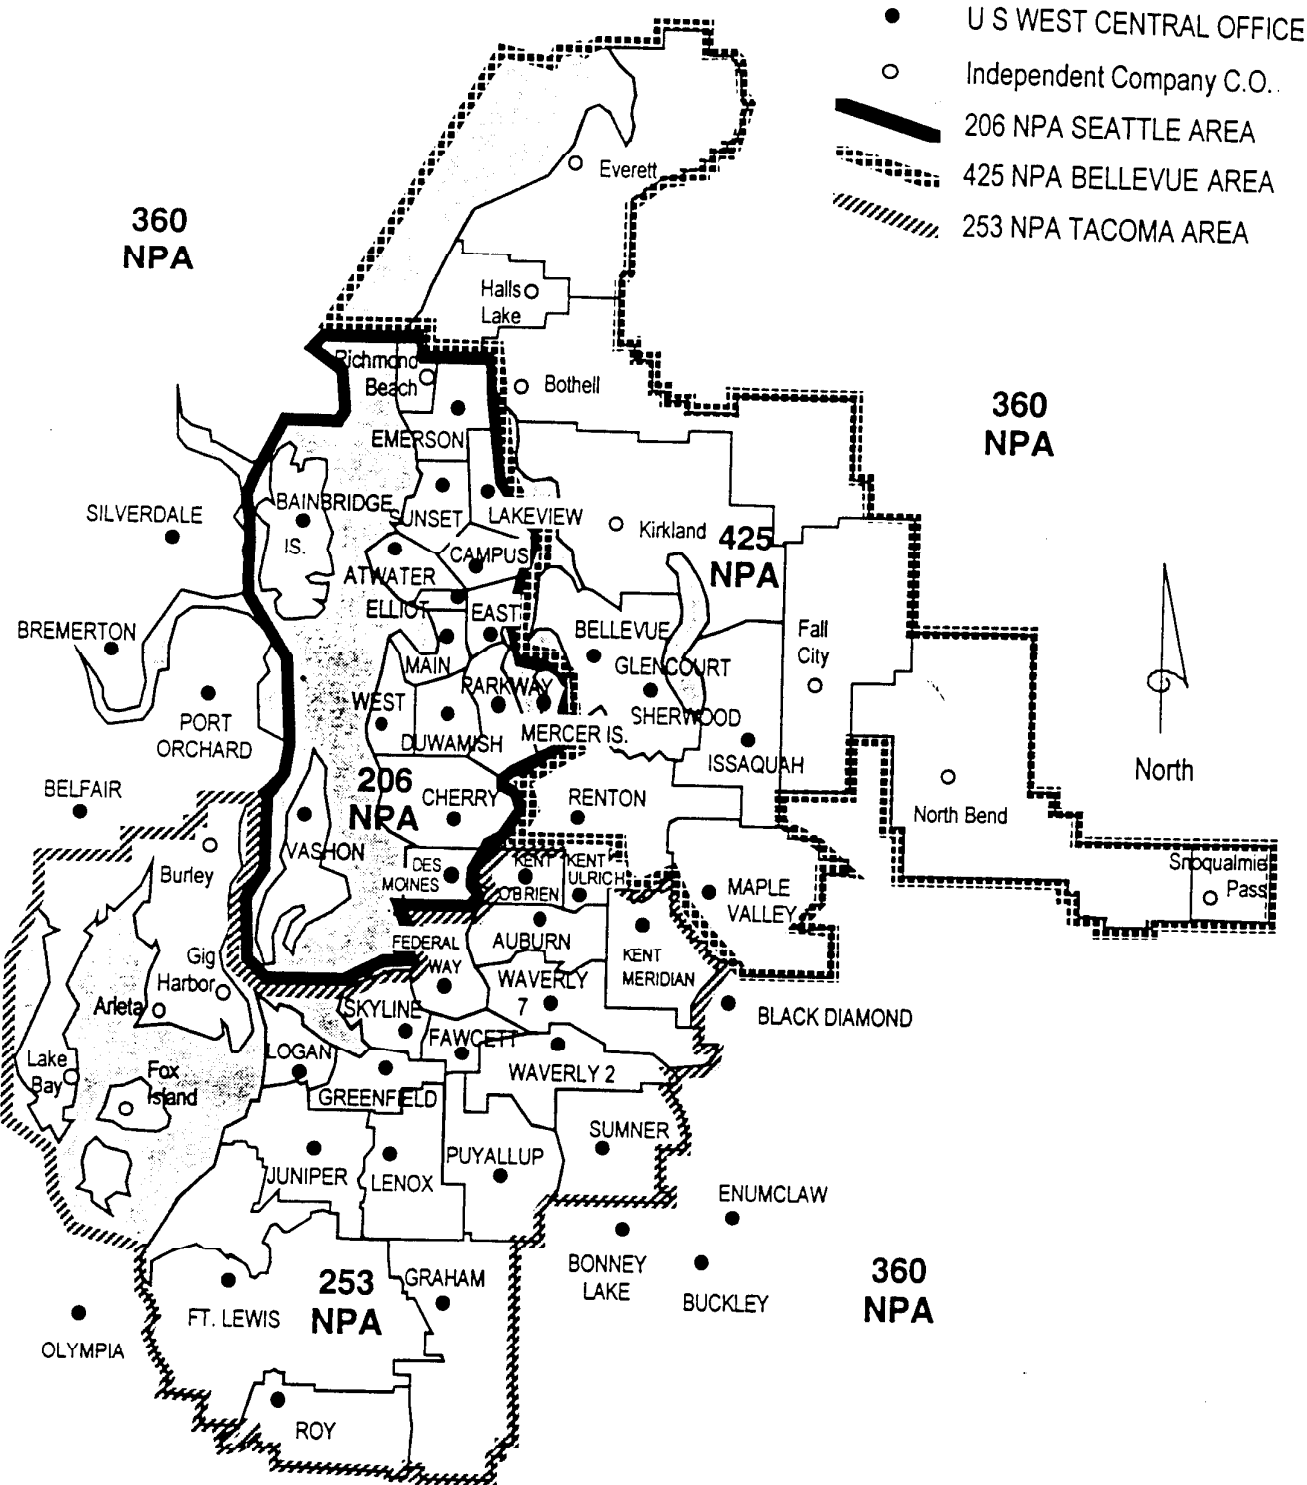

An Automatic Number Identification (ANI) Conversion Schedule will be available prior to the start of permissive dialing. Questions concerning this schedule should be directed to Bill Cope, US WEST, at 303-707-8049. Questions concerning the implementation of the new 253 and 425 NPAs should be directed to Jack Ott, US WEST, at 303-707-7005, or to Kelli Muecke, US WEST, at 303-707-7007.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
