Subject: Declaration of Jeopardy Situation in NPA 816 (Missouri)

We have been advised by Southwestern Bell, central office code administrator for the 816 Numbering Plan Area (NPA) in northern Missouri, that the demand for NXX codes in this area has increased significantly. As a result, the 816 NPA is in jeopardy of exhausting prior to when relief can be provided. According to the *Central Office Code (NXX) Assignment Guidelines*, "A jeopardy condition exists when the forecasted and/or actual demand for NXX resources will exceed the known supply during the planning/implementation interval for relief."

Southwestern Bell has indicated that an approved relief plan for the 816 NPA is expected from the Missouri Public Utility Commission by July 1997. In the meantime, the special conservation measures outlined in Section 8.4 and other appropriate sections of the *Central Office Code (NXX) Assignment Guidelines* will be invoked for the 816 NPA (refer to document INC 95-0407-008, revision 9/96).

Questions concerning the relief of the 816 NPA may be directed to Bill Adair, Southwestern Bell, at 913-676-1539.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
