Subject: NANP-Split of 403 (Alberta) Numbering Plan Area (NPA)

We have been advised by TELUS Communication, Inc. that substantial number growth in the province of Alberta necessitates providing area code relief for the 403 NPA. The relief plan approved by the Canadian Radio and Television Commission (CRTC) calls for the geographic split of the 403 NPA and the simultaneous introduction of the 780 NPA for the relief of NPA 403. In accordance with the Industry Notification of NPA Relief Activity Guidelines (ICCF 92-1127-006), the following is a description of the relief plan.

This relief plan provides for a north/south split of the 403 NPA with a horizontal boundary line drawn north of Red Deer and Stettler. All areas and communities south of the boundary line will retain the 403 NPA, while areas and communities north of the line will be assigned to the new 780 NPA.

The split of the 403 NPA, and the beginning of a permissive dialing period, will take place at 12:01 AM Mountain Standard Time (MST) on Monday, January 25, 1999. The permissive dialing period will end at 12:01 AM MST on Monday, July 12, 1999. During the permissive dialing period, either the 403 or 780 NPA code will be acceptable in a dialed number terminating in the new 780 NPA. After the permissive period, all calls dialed with the incorrect NPA will be routed to intercept.

The attached map illustrates the 403 and 780 NPA configuration after the split. Also attached is a numerical listing of all assigned central office codes (NXXs) and the communities within the 403 and 780 NPAs, as of August 20, 1997.

All international and domestic carriers are asked to ensure that the new 780 NPA has been activated throughout their networks prior to January 25, 1999. Test Calls to verify routing to the new NPA can be made by dialing 780-459-2325, effective November 23, 1998. It is not expected the test number can be reached from outside the 403 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected at the end of the permissive period on July 12, 1999. In the event that calls cannot be successfully completed to the new NPA, the Provincial Network Operations Center (PNOC) may be contacted at 1-888-530-5077.

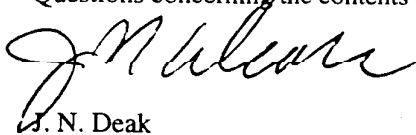

The dialing plan for the 403 and 780 NPAs will be as follows:

- All home NPA (HNPA) local calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or on a 10-digit basis without a prefix, i.e., HNPA-NXX-XXXX (10 digits), as desired.
- All HNPA toll calls, i.e., calls that generally incur an extra charge, will be dialed with a prefix "1" and 10 digits, i.e., 1+HNPA-NXX-XXXX (1+10 digits).
- All foreign NPA (FNPA) local calls will be dialed on a 10 digit basis without a prefix, i.e., FNPA-NXX-XXXX (10 digits).
- All foreign NPA (FNPA) toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1+FNPA-NXX-XXXX (1+10 digits).

- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0+NPA-NXX-XXXX (0+ 10 digits).

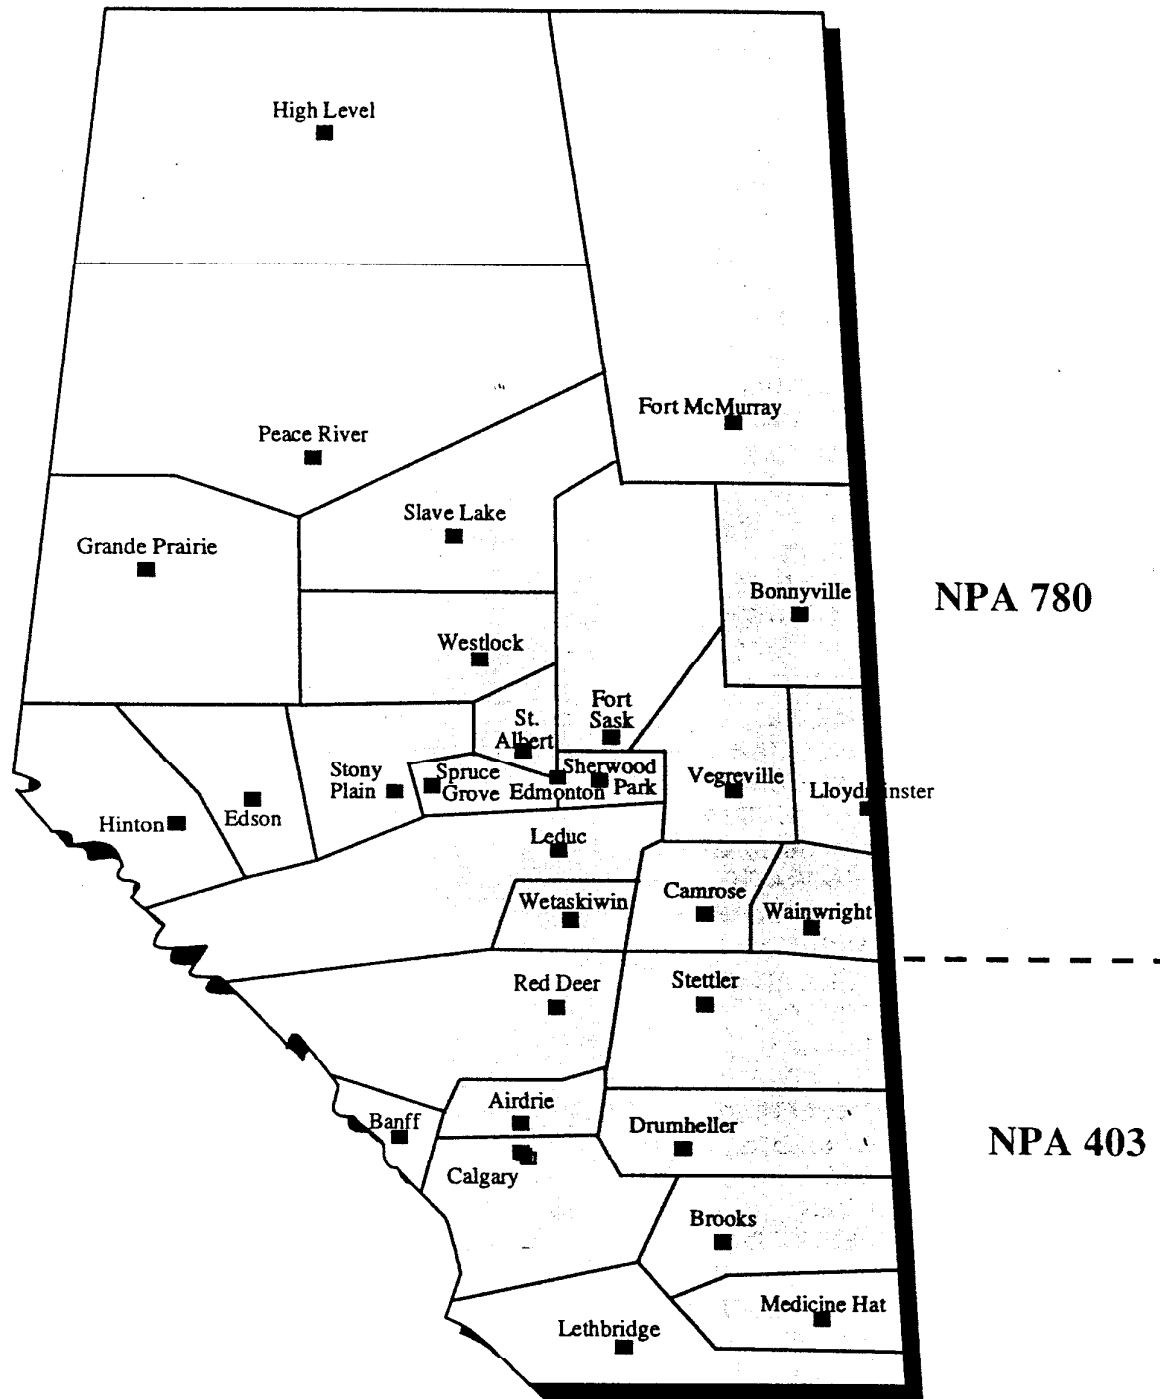

General questions regarding the split of 403 and 780 NPAs may be directed to the Project Manager, Wayne Fuchs, TELUS Communication Inc., at 403-945-8678. All CO code administration and all technical questions should be directed to the NPA Relief Coordinator, C. (Bert) Alexis, TELUS Communication Inc., at 403-493-5831.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 732-699-6612.
